Each record in Annexure-II is marked with a Sr. No. that correlates with the student details in Annexure-I. The total of individual components of feedback from Annexure-II is further analyzed in Annexure-III. Each component (Consolidated) is again analyzed on a 5-point scale. Further, the best and worst element of the respective component is also mentioned in Annexure-III which clearly shows the element that needs improvement. The abstract report about each component and the respective charts are also drawn to make the analysis even more abstract and clear.

The faculty data collected from feedback are tabulated in Annexure-IV 'Faculty Analysis Report Part-A'. Each tabulated record is marked with a Sr. No. that correlated with the student details in Annexure-I. The data collected regarding the individual faculty is analyzed and the Overall Rank (O-R*) on a 5-point scale is given to every element of the feedback for individual faculty. This Overall Rank is the abstract and consolidated analysis that provides the abstract and concrete analysis of each faculty member.
