What is Happiness ?

It is a feeling of inner peace and satisfaction. It is usually experienced when there are no worries, fears or obsessing thoughts. This usually happens when we do something we love to do, or when we get, win, gain or achieve something that we value. It seems to be the outcome of positive events but it actually comes from the inside, triggered by external events.

For most people, happiness seems fleeting and temporary, because they allow external circumstances to affect it. One of the best ways to keep it, is by gaining inner peace through daily meditation. As the mind becomes more peaceful, it becomes easier to choose happiness as a habit.

*Examination is a cricket Match.
Candidate the batsman
Question Paper is the bowler
Examiner an Umpire
Supervisor is the leg Umpire
Table is the pitch
Marksheet the score card
Question is an over
Confusing question a googly
To solve the question instantly is a Sixer
Distinction of course, is a century
To be caught with a chit-in-hand, a run out.
To give a blank answer sheet is clean-bowled
To Fail is to Lose. To pass a win
Re-examination is a follow on
Still no success, on innings defeat.*

Relationship between a Teacher and Student

Most of the students don't know the greatest and best relationship between teachers and students. The students don't understand what teacher is for students.

According to my view, the relationship between teachers and students is like a friend who try to understand our problems very well and help us to try to solve it.

Teachers can be just like a "Mother" who worries a lot about their children in their studies, sorrows, their problems etc. A teacher can be exactly like a mother who gives her all happiness, love, attention and special care towards her child.

According to my point of view, A Teacher is like a God who gives us all his blessing to be successful in each and every field.

Competition Everywhere

Constructive or destructive struggle is the most fundamental form of social struggle. It is a natural result of the fact that all people can never satisfy all their desires. Whenever and wherever commodities which people want are available in a limited supply, there is competition.

Competition may be found even in circumstances of abundance or affluence. There is competition not only for food, shelter and other basic needs, but also for luxuries, power, name, fame, social position, mates and so on. Competition is covering almost all the areas of social living. Business people compete for customers, lawyers for clients, doctors for patients, students for ranks or distinction, athletes and sportsmen for trophies, political parties for power, young men and women for mates and so on, still no society can be said to be exclusively competitive

or cooperative.

Competition may be healthy or unhealthy. If one of two or more competitors tries to win only at the expense of others, it is destructive. Sometimes, big industrialists or capitalists resort to such a kind of competition and make the small petty businessman to become virtually bankrupt.

Life at College

One of the most interesting stage in life that gives you an opportunity to explore is the College phase. Life at college is the time when the teenage years end & we all dive deep into the ocean of new beginnings & possibilities. This golden period better equips you for all the challenges you'll face in life & creates a strong foundation of knowledge.

College is a perfect blend of joy and hardships. You meet different people, you interact with them, you learn about their cultures and grow as a person. You learn how to interact with different people, how to judge their behavior, thus helping you with important life skills.

You learn to sit though a boring lecture; you try to cope up with the surprisingly strenuous syllabus & you have the opportunity to learn from some great research minds. People might try to motivate you by telling that you need to study only through your school years and chill during the college life, but that isn't true.

Another life lesson you remember is learning never ends. You find campus group or student groups where you can explore your co-curricular skills along with many other students like you, share common ideas. The life at college is the time when you can decide your career.

My Goals in Life

As educated, cultured persons, we all should have a goal in our lives, and only a person with a goal in life has a correct direction. A person with a goal, lives purposefully, working day and night, moving inch by inch towards his goal.

Each step he takes is a step in the direction of his objective. There may be obstacles in the way, and no man, however gifted, and knowledgeable, has achieved his goal easily. The joy of victory is the joy of crossing numerous hurdles, foreseen and unforeseen, and the last step towards victory is the moment of the greatest joy, for, a person, then realised how undaunted and how self confident he was, while traversing the slippery path on the way to success.

Importance of Girls' Education

There was a time when people thought that it was not necessary to educate girls. But now we have begun to realize that girls education is essential. The Modern age is the age of awakening of girls. They are trying to compete with men in all spheres of life. There are many people who oppose girls' education. They think and say that the proper sphere of girls is the home. So, they argue that the money spent on girls' education is wasted. This view is wrong because girls education can bring about a silent revolution in the society.

Girls's education is necessary for making the homes a happy place. A man's life blossom when he is blessed with well educated women as wife and mother. Educated girls can brighten the future of their country by the good upbringing of their children. Education gives a woman freedom of thought. It broadens her outlook and makes her aware of her duties and responsibilities.

Education of rural girls is equally important. The rural girls are not getting ample opportunity for education. Education of these girls would have positive impact on both economy and society.

Many people say that girls should not go in for degrees. They are wrong, because girls have already proved their worth in all walks of life. There is no reason why girls should not get the same kind of education as men.

So I personally think that the progress of a country depends on girls' education. So, girls' education should be encouraged.

EFFECTS OF POLLUTION

The effect of Air pollution are alarming. They are known to create several respiratory and heart problems along with cancer and other threats to the body. Several millions are known to have die due to direct or indirect effects of air pollution. Children in areas exposed to air pollutants are said to commonly suffer from pneumonia and asthma. Another direct effect is the immediate alternations that the world is witnessing due to Global warming. With increased temperatures worldwide, increase in sea levels and melting of ice from colder regions and icebergs, displacement and loss of habitat have already signalled on impending disaster. Harmful gases like nitrogen oxide and sulphur oxide are released into the atmosphere during the burning of fossil fuels. When it rains, the water droplets combines with air pollutants, becomes acidic pollutants and then falls on the ground in the form of acid rain. Acid rain can cause great damage in human, animals and crops.

Pollution not only affect humans by destroying their respiratory, cardiovascular and neurological system; it also affects the nature, plants, fruits, vegetables, river, ponds, forests, animals, etc on which they are highly dependent for survival. It is crucial to control pollution as the nature, wildlife and human life are precious gifts to the mankind.

सम्पादिका की कलम से

प्रिय साथियों,

“अम्बिका” के हिन्दी अनुभाग को आपके सम्मुख प्रस्तुत करते हुए हमें परमानन्द अनुभूति हो रही है। “अम्बिका” विद्यार्थियों की अपनी पत्रिका है, जिसका मुख्य उद्देश्य विद्यार्थियों में संचित लेखन कला एवं लेखन क्षमता को सजीव, प्रभावशाली बनाना है और उनमें निखार लाना है। इस पत्रिका के माध्यम से महाविद्यालय के छात्र-छात्राओं को अपने विचार प्रस्तुत करने का सुअवसर मिलता है। इस वर्ष हमारी प्रिय वार्षिक पत्रिका “अम्बिका” के हिन्दी-अनुभाग की छात्रा सम्पादिका का कार्यभार मुझे सौंपा गया है। मेरा मन बहुत आशंकित था, कि मैं कार्यभार को संभाल पाऊंगी या नहीं, किन्तु हिन्दी की प्राध्यापिका प्रो० सुजाता तथा समस्त गुरुजनों के पूर्ण सहयोग एवम् स्नेहिल मार्गदर्शन से मेरा ये कठिन कार्य सुगमता से सम्पन्न हुआ। मैं उन सभी की हृदय से ऋणी हूँ। अंत में, मैं उन सभी छात्र साथियों से माफी मांगना चाहती हूँ, जिनकी रचनाएँ इस वर्ष पत्रिका में स्थान प्राप्त नहीं कर पाईं वे निराश न हों, हताश न हों, बल्कि अपना प्रयास जारी रखें क्योंकि प्रयास ही हमें सफलता के शीर्ष तक पहुँचाते हैं। मुझे पूर्ण आशा है कि यह सभी रचनाएँ अगले वर्ष पत्रिका में स्थान प्राप्त करेंगी। इन्हीं मंगल कामनाओं के साथ आप सब के सम्मुख हमारे महाविद्यालय की वार्षिक पत्रिका अम्बिका 2018-19 का हिन्दी-अनुभाग प्रस्तुत है।

हमारी हिन्दी भाषा भी इसी ऊँ की देन है।

देवनागरी लिपि है इसकी, देवों की कलम से उपजी

हमारी हिन्दी भाषा भी अपने में सम्पूर्ण है

कहते हैं इस मातृभाषा को बदल डालो।

बदल सको क्या तुम अपनी माता को ?

मातृभाषा का क्यों बदलाव करो।

देवों की भाषा का क्यों तुम तिरस्कार करो।

बदल सको तो तुम अपनी सोच को बदल डालो

एक किताब है जिन्दगी

बनते बिगड़ते हालातों का

हिसाब है जिंदगी

हर रोज एक नया पन्ना जुड़ता है जिसमें

वो ही एक किताब है जिंदगी।

हर पल एक नया किस्सा,

तैयार रहता है अपना अंत पाने को,

गमों के दौर में खुशियों को

राह तकते हैं कई लोग,

तड़पते हैं पेड़ और पंछी पतझड़ में

जैसे बंसत पाने को।

कभी कड़ी धूप सी परेशानियाँ

जलाती रहती है दर्द की एक आग सीने में,

कभी खुशियों में आनंद मिलता है तो

खुशबू आती है पसीने में,

मजबूरियों का सिलसिला

चलता रहता है सबकी राहों में,

बदल देते हैं वो शख्स कायनात अपनी

होती है जान होसलों की जिनकी बाहों में,

छिपा कर रखती है कई राज अनजाने से

कहने को वो हिसाब है जिंदगी

हर रोज एक नया पन्ना जुड़ता है जिसमें

वो ही एक किताब है जिंदगी।

संघर्ष ही जीवन है

संघर्ष ही जीवन है। जीवन का दूसरा नाम संघर्ष है। इस सृष्टि में छोटे से छोटे प्राणी से लेकर बड़े प्राणी तक किसी न किसी रूप में संघर्ष करते हैं, जो संघर्ष करना छोड़ दिया वह मृतपाय हो जाता है। तरह-तरह संघर्षों का सामना आए दिन हम सबको करना पड़ता है और उनसे जूझना पड़ता है जो इन संघर्षों से कतराते हैं वे जीवन में भी हार जाते हैं, जीवन भी इनका साथ नहीं देता।

सफलता तथा कामयाबी की चाह तो सभी रखते हैं, पर संघर्ष करने से कतराते हैं। हम जिन व्यक्तियों को सफलता की ऊँचाइयों पर देखते हैं, उनका भूतकाल अगर हम देखेंगे तो हमें जानने को मिलेगा कि यह सफलता जीवन के साथ संघर्ष बहुत संघर्ष करने से प्राप्त होती है। वास्तव में जब व्यक्ति अपने संघर्ष से दोस्ती कर लेता है, तो वह प्रसन्नता से उन्हें अपनाता है उत्साह के साथ चलता है और उसे कठिन से कठिन डगर को पार करने में मदद करता है। जब जीवन में एवरेस्ट जैसी मंजिल हो और उस तक पहुँचने के लिए कठिन संघर्षों का रास्ता हो, तो घबराने की बात नहीं करता, संघर्षों को अपनाने से ही मंजिल मिल जाती है।

जब हम संघर्ष करते हैं तो हमें अपने बल और सामर्थ्य का पता चलता है। संघर्ष करने से ही आगे बढ़ने का फैसला, आत्मविश्वास मिलता है और अंततः हम अपने मंजिल को हासिल कर लेते हैं।

गुरु की महिमा

गुरु की महिमा क्या कहे, निर्मल गुरु से ही होय!

बिन गुरुवर जीवन कटु—सा होय।

गुरु का ज्ञान ही इन्सान को इन्सान बनाता है। सच्चा गुरु अपने शिष्य को व्यावहारिक जीवन से रूबरू करवाता है।

गुरु वह व्यक्ति है, जो ज्ञान की गंगा बहाता है, और सच्चा गुरु अपने शिष्य को व्यावहारिक जीवन से रूबरू करवाता है।

गुरु वह व्यक्ति है, जो ज्ञान की गंगा बहाता है, और अपने शिष्य को अन्धकार से प्रकाश की ओर ले जाता है।

गुरु का ज्ञान सदा ही शिष्य के साथ होता है, उनकी ताकत ज्ञान स्वरूप शिष्य के साथ प्रतिपल छाया के रूप में रहती है।

जिसके जीवन में गुरु का आशीर्ष नहीं, उसका जीवन एक कड़वे फल के समान होता है।

जो सच्चा गुरु है, उसे आदर पाने की लालसा नहीं होती, उसके सामने अपने आप सर झुक जाते हैं।

गुरु के बिना ज्ञान नहीं,

ज्ञान के बिना कोई महान नहीं!

भटक जाता है, जब इन्सान,

तब गुरु ही देता है ज्ञान!

हमारी कमियों को जो बनाता है, वो गुरु है।

हमें इन्सानियत जो सिखाता है, वो गुरु है।

हमें जो हरि की तरह तराश दे वो गुरु है।

हमारे अन्दर जो विश्वास जगा दे, वो गुरु है।

जिसके पास नहीं है गुरु समझ लेना वो धनवान् नहीं है।

बेटी की आह पर मरते, बहू की आह पर तरसे ।
इन किस्सों को हो गए अरसे,
काश! गुम हो जाएँ ये किस्से, हर घर के,
नामुंकिन है मिटना इनका,
बेटी, बहू हिस्सा एक घर का,
फिर भी जुदा किस्सा है इनका ।
बेटी भी है बहू किसी की,
जल्लाद लगे तुम्हें सास उसी की,
खुद को तो तुम देवी मानो ।
हंस के जलील बहू को करना जानो, बहू के मुँह पर ताने मारो,
सामने हो बेटा तो गले लगा लो, यही तो है सिक्का सीधों का ।
बेटी, बहू हिस्सा एक घर का, फिर भी जुदा किस्सा है इनका ।
बेटी दे तो पानी भी अमृत, बहू का अमृत भी है पानी । एक दूजे घर जाने वाली तेरी हर दम यही
कहानी, तू हँस के बोलेगी भी, तो भी तेरी होगी बदनामी, सास तो माँ है, तू ना बेटी, यही तो सच है
इस जग भर का !
बेटी बहू हिस्सा एक घर का
फिर भी जुदा किस्सा है इनका ।

जिन्दगी

थक कर निराश हो बैठ, कभी उत्साह न खोना,
संघर्षों के लिए जिन्दगी, फिर क्या रोना।
चलना ही जब ठान लिया हो,
लक्ष्य तक पहुँचना मान लिया हो,
पथ के काँटों में क्या करना।
बीहड़ राहों से क्या डरना।
घृणा मिले या प्यार, किन्तु साहस मत खोना,
संघर्षों के लिए जिन्दगी, फिर क्या रोना।
इतिहास गीत उसके ही गाता,
जो बाधाओं में टकराता।
वही विश्व में पूजा जाता,
दृग जल-अर्ध अंत में पाता।
जीवन का उत्थान इन्हीं संघर्षों में, विश्वास मत खोना,
संघर्षों के लिए जिन्दगी, फिर क्या रोना।।

सत्यवचन

गीता में लिखा है की
अगर कोई इंसान बहुत हंसता है
तो अंदर से बहुत अकेला है।
रास्ते में अगर मंदिर देखो तो प्रार्थना नहीं करोगे
तो चलेगा, पर रास्ते में एम्बुलेंस मिली तो
प्रार्थना जरूर करना
शायद कोई जिन्दगी बच जाए।
जो भाग्य में है वह भाग कर आएगा।

जो नहीं है वह आकर भी भाग जाएगा।
नव प्यार और नफरत दोनों ही न हो
तो हर चीज़ साफ और स्पष्ट हो जाती है।

अनमोल वचन

शिक्षा सबसे अच्छा गुण है
एक शिक्षित व्यक्ति हर जगह
सम्मान पाता है शिक्षा सुन्दरता और
जवानी को परास्त - बड़पन कर देती है,
बड़पन वह गुण है
जो पद से नहीं संस्कारों
से प्राप्त होता है।
परायों को अपना 'बनाना'
उतना मुश्किल नहीं
जितना अपनों को अपना
बनाए रखना।
जिंदगी में जितना शांत रहोगे,
अपने आप को हमेशा उतना ही मजबूत
पाओगे क्योंकि लोहा ठंडा होने पर ही
मजबूत होता है।

‘पिता जी’

मेरा साहस मेरी इज्जत मेरा सम्मान है पिता।

मेरी ताकत मेरी पूँजी मेरी पहचान है पिता।

घर की इक-इक ईंट में शामिल खून पसीना उनका।

सारे घर की रौनक उनसे सारे घर की शान पिता।।

मेरी इज्जत, मेरी शोहरत, मेरा रूतबा, मेरा मान है पिता।

मुझको हिम्मत देने वाले मेरा अभिमान है पिता।।

सारे रिश्तों उनके दम से सारी बातें उनसे हैं।

सारे घर के दिल की धड़कन सारे घर की जान पिता।

शायद ख ने देकर भेजा फल ये अच्छे कर्मों का।

उसकी रहमत उसकी बेअमत उसका है वरदान पिता।।

अध्यापक राष्ट्र का निर्माण

सच्चे अर्थों में अध्यापक राष्ट्र का निर्माता है। राष्ट्र को कोई नेता या, राजनेता महान नहीं बनाता। राष्ट्र को महान बनाने में एक अध्यापक का सबसे अधिक योगदान है। अध्यापक के द्वारा जिन बच्चों को शिक्षा रूपी अमूल्य धन दिया जाता है,

उन बच्चों में से कई उच्च पदों पर आसीन होकर देश को महान बनाने में योगदान देते हैं। ये बच्चे नव राष्ट्र का निर्माण करते हैं। अध्यापक चाहे किसी छोटे से गांव के छोटे स्कूल में शिक्षा प्रदान

करता हो या किसी बड़े शहर के बड़े विद्यालय में। अध्यापक—अध्यापक ही होता है। अध्यापक बच्चों में देशभक्ति की भावनायें भरता है।

किसी भी देश के प्रति प्रेम की भावना पैदा होने के पीछे अध्यापक का हाथ होता है यदि आप और अन्य कोई व्यक्ति यह सोचता है कि अध्यापक के द्वारा सभी को शिक्षा दी जाती है तो सभी महान क्यों नहीं बन गए होते इसके पीछे एक मात्र कारण मैं यह समझती हूँ कि जो छात्र अध्यापक के गुणों को न ग्रहण करके अवगुण की ओर ध्यान देता है। वह जीवन में कभी भी उन्नति नहीं कर पाता। मेरे विचार से वह देश जो अध्यापक का सम्मान नहीं करता वह कितना भी विकसित क्यों नहीं अपने देश के नागरिकों के अंतिम विकास की बागडोर में पिछड़ा हुआ देश है।

बेटी—बचाओ। कन्या भ्रूण हत्या मत करो:—

□ संसार का हर प्राणी जीना चाहता है और किसी भी प्राणी का जीवन लेने का अधिकार किसी को नहीं है। अन्य प्राणियों की तो छोड़ो आज तो बेटियों की जिन्दगी कोख में ही छीनी जा रही है। “यत्र नार्यस्तु पूज्यन्ते रमन्ते तत्र देवता” अर्थात् जहां नारियों की पूजा की जाती है वहां देवता निवास करते हैं। ऐसा शास्त्रों में भी लिखा है। किन्तु बेटियों की दिनों—दिन संख्या कम होती रही। संख्या हमारे दोहरे चरित्र को उजागर करती है।

□ जीवन की हर समस्या के लिए देवी की अराधना करने वाला भारतीय समाज कन्या जन्म को अभिशाप मानता है और इस संकीर्ण मानसिकता की उपज हुई है—दहेज रूपी दानव से। अगर कुछ उचित है तो वह दहेज रूपी दानव का जड़मूल से खात्मा। एक दानव के डर से दूसरा दानविक कार्य करुणा एक जघन्य अपराध है। नारी बिना सृष्टि सम्भव नहीं है ऐसे में बढ़ते लिंगानुपात की बजह से वह दिन दूर नहीं है जब 100 लड़कों पर एक लड़की होगी और वंश वेल को तरसती आंखें कभी भी तृप्त नहीं हो पाएगी।

□ "बेटी है तो कल है।"

□ बेटी है कुदरत का उपहार, जीने का इसको दो अधिकार।"

□ "बेटी को मरवाओगे तो दुल्हन कहां से लाओगे"।

□ "मां चाहिए, पत्नी चाहिए, बहन चाहिए फिर बेटी क्यों नहीं चाहिए"।

□ बहुत सरल है पेट में करना मुझ पर वार, हिम्मत है तो ऐ मां मुझको पैदा करके मार।"

बेटी बचाओ, सृष्टि बचाओ!

"माँ तू होती तो"

नींद बहुत आती है पढ़ते-पढ़ते:-

माँ होती तो देती, एक प्याली चाय बना दो।

थक गयी जली रोटी खा खा कर।

माँ होती तो कह देती परांठे बना दे।।

भीग गयी आंसुओं से आँखे मेरी,

माँ होती तो कह देती आँचल दे दे।।

रोज़ वही कोशिश खुश रहने की।

माँ होती तो मुस्कुरा लेती।।

देर रात हो जाती है घर पहुँचते-पहुँचते।

माँ होती तो वक्त से घर लौट जाती।

सुना है कई दिनों से वो भी नहीं मुस्कराई।

ये मजबूरियाँ न होती तो घर चली जाती।

बहुत दूर निकल आयी हूँ घर से अपने,

तो तेरे सपनों की परवाह न होती

तो बस चली आती।

हिन्दी है मेरे देश की धड़कन

हमारा आभिमान है हिन्दी

भारत की शान है हिन्दी।

जब एक बच्चा जन्म लेता है तो वह माँ के पेट से ही बोली सीखकर नहीं आता। उसे भाषा का पहला ज्ञान अपने माता-पिता द्वारा बोले गए प्यार भरे शब्दों से ही होता है। भारत में अधिकतर बच्चे सर्वप्रथम हिन्दी में ही अपनी माँ के प्यार भरे बोलों को सुनते हैं हिन्दी हिन्दुस्तान की भाषा है। यह भाषा है हमारे सम्मान, स्वाभिमान और गर्व की। हिन्दी ने हमें विश्व में एक नई पहचान दिलाई है।

“राष्ट्रभाषा के बिना राष्ट्र गूंगा है” यह कथन राष्ट्रपिता महात्मा गांधी का है। जिस हिन्दी को संविधान में सिर्फ राजभाषा का दर्जा प्राप्त है उसे कभी गांधी जी ने खुद राष्ट्रभाषा बनाने की बात कही थी। 1909 में प्रकाशित अपनी पुस्तक ‘हिंद-स्वराज’ में गांधी जी ने लिखा कि ‘हर पढ़े लिखे हिन्दुस्तानी को अपनी भाषा का, हिंदु को संस्कृत का मुस्लिमान को अरबी का, पारसी को परिशियन का और सबको हिन्दी का ज्ञान होना चाहिए। गांधी जी का विचार था कि ‘अंग्रेजों ने नहीं बल्कि अंग्रेजी जानने वाले भारतीयों ने भारत को गुलाम बनाया।’ कांग्रेस का सारा कामकाज पहले अंग्रेजी में होता था जिसे गांधी जी के आगमन के पश्चात् हिन्दी में किया जाने लगा। लेकिन आज़ादी के पश्चात् न गांधी जी रहे न उनका सपना। सत्ता में बैठे और भाषा-जाति के नाम पर राजनीति करने वालों से हिन्दी को राष्ट्रभाषा नहीं बनने दिया।

आधुनिक हिन्दी साहित्य के जनक भारतेन्दु हरिश्चन्द्र ने राष्ट्रभाषा के महत्व को रेखांकित करते हुए लिखा—

निज भाषा उन्नति अहै, सब उन्नति को मूल।

बिनु निज भाषा ज्ञान के, मिटत न हिय को सूल।।

क्यों घटता जा रहा है हिंदी का महत्त्व:-

14 सितंबर, 1949 को भारतीय संविधान सभा ने देवनागरी लिपि में लिखी गई हिन्दी भाषा को अखण्ड भारत की प्रशासनिक भाषा के ओहदे से नवाजा था। यही वजह है कि हर वर्ष 14 सितंबर को हिंदी दिवस के रूप में मनाया जाता है। लेकिन आज देश की यही राजभाषा स्वयं अपने अस्तित्व की तलाश कर रही है। अंग्रेजी के प्रचार प्रसार ने मानों हिंदी से उसका अधिकार छीन लिया है। अंग्रेजी माध्यम में शिक्षा देने वाली संस्थाओं की संख्या लगातार बढ़ती जा रही है और यह तर्क दिया जाता है कि भूमण्डलीकरण के दौर में अंग्रेजी में शिक्षा आवश्यक है तो यह तर्क खोखला है। भाषा को सीखना और भाषा को शिक्षा का माध्यम बनाना अलग-अलग बातें हैं। यदि एक क्षण के लिए मान भी लिया जाए तो भी इस विदेशी भाषा को ढोना कहाँ तक उचित है क्योंकि दूसरे की माँ उससे अधिक सुन्दर दिखाई पड़ती है।

कहने को तो लोग हिंदी को अपनी मातृभाषा कहते हैं लेकिन युवा, जिन्हें हम देश का भविष्य कहकर भारी-भरकम जिम्मेदारी सौंप देते हैं, खुद हिंदी के महत्त्व को नकारता जा रहा है। उनके लिए हिंदी में बोलना अपने स्टेटस को कम करने जैसा है। यूं तो हिंदी दिवस के उपलक्ष्य में लगभग सभी स्कूल, कॉलेजों में कोई न कोई आयोजन किया जाता है, जिनमें भागीदारी निभाने वालों की संख्या नगण्य होती है। पर जब बोलचाल और पढ़ाई की बात आती है तो उनकी प्राथमिकता अंग्रेजी को ही जाती है।

उपरोक्त सभी बातें जहां हिन्दी को गौरवपूर्ण इतिहास पर प्रकाश डालती हैं वहीं हिन्दी की बर्बादी के मुख्य कारणों को भी समान रूप से उभारती हैं। लेकिन ऐसा नहीं है कि हिन्दी को राष्ट्रभाषा का दर्जा मिल ही नहीं सकता। जानकार मानते हैं कि अगर आज भी पूरा हिन्दुस्तान एक होकर हिन्दी को राष्ट्रभाषा बनाने के लिए राजी हो जाए तो संविधान में उसे यह स्थान मिल सकता है। तो चलिए आज एक लहर की शुरुआत करें अपनी मातृभाषा को राष्ट्रभाषा बनाने के लिए। जय हिन्द, जय हिंदी।

मंजिल

आज बादलों ने
फिर साजिश की
जहां मेरा घर था
वहीं बारिश की

अगर फलक को जिद है बिजलियां गिराने
की

तो हमें भी जिद है वहीं पर आशियां बसाने की
अभी तो असली मंजिल पाना बाकी है

अभी तो इरादों का इम्तिहान बाकी है

अभी तो तोली है मुट्ठी भर जमीन

अभी तो तोलना आसमान बाकी है

अभी तो सफर का इरादा किया है

ना हारुंगां हौसला उम्र भर

ये मैंने किसी से नहीं खुद में वादा किया है

जिंदगी में कभी उदास न होता

कभी किसी बात पर निराश न होता

ये जिंदगी एक संघर्ष है चलती ही रहेगी

कभी अपने जीने का अंदाज न खोना

अगर सीखना है दिए से तो जलना नहीं,
मुस्कराना सीखो

अगर सीखना है सूर्य से तो डूबना नहीं उठना
सीखो

अगर पहुँचना हो शिखर पर तो राह पर

चलना नहीं राह का निर्माण सीखो

निगाहों में मंजिल थी

गिरे और गिरकर संभलते रहे

हवाओं ने बहुत कोशिश की

मगर चिराग आंधियों में भी जलते रहे

कोशिश के बावजूद हो जाती है कभी हार

होके निराश मत बैठना ऐ यार

बढ़ते रहना आगे हो जैसा भी मौसम

पा लेती मंजिल चींटी भी..... गिर-गिर कर
कई बार

परिदो को मंजिल मिलेगी यकीनन

ये फैले हुए उनके पंख बोलते हैं।

अक्सर वो लोग खामोश रहते हैं

जमाने में जिनके हुनर बोलते हैं।

मंजिल लाख कठिन आए गुजर जाऊंगा

सामने हो मंजिल तो रास्ते न मोड़ना

जो भी मन में हो वो सपना मत तोड़ना

हवाओं से कह दो अपनी औकात में रहे

हम पंखों से नहीं हौसलों से उड़ते हैं

नज़र को बदलो तो नज़ारे बदल जाते हैं

सोच को बदलो तो सितारे बदल जाते हैं

कशतियाँ बदलने की जरूरत नहीं

दिशा को बदलो किनारे खुद व खुद बदल
जाते हैं

पानी में तस्वीर बना सकते हो तुम

कलम को शमशेर बना सकते हो तुम

कायर हैं जो तकदीर पे रोते हैं
जैसी चाहो वैसी तकदीर बना सकते हो तुम
मंजिल उन्हीं को मिलती है
जिनके सपनों में जान होती है
पंखों से कुछ नहीं होता
हौसलों में उड़ान होती है
मिल ही जाएगी मंजिल भटकते भटकते
गुमराह तो वो है जो घर से निकले ही नहीं
मुश्किलों से भाग जाना आसान होता है
हर पहलू जिंदगी का इम्तिहान होता है
डरने वालों को मिलता नहीं कुछ जिंदगी में
लड़ने वालों के कदमों में जहान होता है
अपनी जमीन अपना आसमान पैदा कर
मांगने से जिंदगी कब मिल जाए ऐ दोस्त
खुद ही अपना इतिहास पैदा कर
असफलता एक चुनौती है इसे स्वीकार करो
क्या कमी रह गई देखो और सुधार करो
कुछ किए बिना ही जय-जयकार नहीं होती
कोशिश करने वालों की कभी हार नहीं होती
बुझी शमा भी जल सकती है
तूफान से कश्ती भी निकल सकती है
होके मायूस यूं ना अपने इरादे बदल

तेरी किस्मत कभी भी बदल सकती है
गम के अंधेरों में खुद को बेकरार ना कर
सुबह जरूर आएगा
सुबह का इंतजार कर
अपने मन पर काबू कीजिए और बदलो अपनी
जिंदगी तो
क्योंकि यह समय फिर नहीं आएगा
इसलिए जो करना चाहते हो करो
जो बनना चाहते हो बनो
और याद रखें।

जो भी है चलता जाता है

क्यों पीट रहा सर उस चौखट पर,
जिसे समय की सीमा लांघ गई।
रुकना है रुक पर याद रहे,
ठहरेगा कोई साथ नहीं।
जिस राह निकलकर गया समय,
वो राह कहां दोहराता है।
जो आज है वो कल क्या होगा,
ये वही समय बतलाता है।
क्या कहूं कि उड़ता वो पंछी,
बस तिनका लेकर जाता है।
उन्नति का कारोबार सदा,
सपनों के दम पर चलता है।
बीज लगे जैसा दिल पर,
फल बैसा लगता जाता है।
जो भी है चलता जाता है
जो भी है चलता जाता है।
क्या सुना कभी वो विश्व कहीं,
न ध्वस्त हुआ या बना नहीं।
सागर थामें ये पर्वत भी,
क्या कभी जगह से हिला नहीं।
निर्माण नाश स्तंभ टिकी,
परिवर्तन की अपनी गाथा है।
कभी रुका नहीं.....ना रुक सकता,
जो भी है चलता जाता है।
जो आज है वो कल क्या होगा,
ये वही समय बतलाता है।
जो भी है चलता जाता है।

Role of Green Tea in memory Improvement

Your love for green tea many help improve memory as well as insulin resistance in the brain caused by a high fat and high-fructose diet, researches say. A Study, involving mice, showed that green tea contains and ingredient known as EGCG [epigallacatechin-3-gallate], the most abundant catechin and biologically active component. This component has the potential to alleviate insulin resistance-a precursor to type. In diabetes is induced by obesity as well of improve age-related cognitive decline, accompanied by peripheral inflammation. Green tea is the second most consumed beverage in the world after water, and is grown in at least 30 countries.

Best Diet for Students

A healthy diet is essential during examinations. A diet containing Vitamin B and iron is very necessary for a sharp brain.

Breakfast is the most important meal as it will keep you re-charged.

Make Sure your diet includes Vitamin B and iron in ample quantity. Foods like pulses, spinach, soybean, wheat, and eggs are high on vitamin B and iron content.

Fruits:- Instead of popping pills for vitamins and iron supplements, start eating fruits which are high on nutritional value.

Eat at regular intervals:-

While you study rigorously for hour, you start feeling low on energy.

Eat less:-

You don't want to fall asleep during your study sessions. So, in order to avoid that situation eat in less quantity.

Role of Internet In the Modern Era

The modern era has been now extremely advanced and basic reason for this development is actually the launch of Internet and its applicants which have provided the individuals with the earliest routine in their daily lives.

There are also some open opportunities of making the money through the Internet.

GLOBAL CARBON-DIOXIDE EMISSIONS

Global carbon-dioxide emissions are expected to hit a record high in 2018. This is despite urgent calls for countries to cut back. Those calls have come from climate scientists international groups such as the United Nations - and kids and teens. Worldwide, fossil fuel use is projected to pump 2.7 percent more CO₂ into the air this year than in 2017. Last year such emissions totaled some 9.9 billion metric tons (gigatons).

Carbond dioxide (or CO₂):- *A colourless, odorless gas produced by all animals when the oxygen they inhale reacts with the carbon - rich foods that they've eaten. Carbon dioxide also is released when organic matter burns (including fossil fuels like oil or gas). Carbon dioxide acts as a greenhouse gas, trapping heat in Earth's atmosphere. Plants convert carbon dioxide into oxygen during photosynthesis, the process they use to make their own food.*

Save water

Water is a resource that must be saved. Human need water to drink and cook their food with. Water is needed for agriculture. We need water to maintain personal hygiene and to keep our homes and surroundings clean. Many industrial processes

to need water. Water is therefore an essential requirement for all life forms on planet earth. Water is not an unlimited resource. If water is wasted, it is lost. Usable water in seas and oceans is not usable due to its salinity. Polluting water bodies should be avoided as all life forms depend on water to live. Domestic and industrial wastes should not be let into water bodies. If humans pollute water and thus waste it the environment is harmed and all life forms are threatened. We must use water judiciously. If there are leaking taps and pipes they should be repaired so that the leakage is stopped. Drinking water should not be wasted in gardens, as recycled water can be used for the purpose. Similarly we should not use excessive amounts of water for cleaning our homes and surroundings. Water is therefore an important resource that must be saved and wastage of water must be avoided.

[Mental Health: A big problem to tackle]

Mental health is an integral and essential component of health. The WHO constitution states: "Health is a state of complete physical, mental and social well being and not merely the absence of disease".

Mental health is a state of well being in which an individual realize his or her own abilities, can cope with normal stresses of life, can work productively and is able to make contribution to his or her community. Multiple Social, Psychological and biological factors determine level of mental health of person. For example, violence and persistent socio-economic pressure are recognized risk to mental health. Poor mental health is also associated with sexual violence, stressful work condition, gender discrimination, social exclusion, unhealthy lifestyle, physical ill-health and human right violations.

A Environment that respects and protects basic civil, political, socio-economic and cultural rights is fundamental to mental health. Without security and freedom, it is difficult to maintain high level of mental health. There are specific way to promote mental health include.

- Support to children by providing protection from threats
- Socio-economic empowerment of women
- Social support for elderly population.
- Program targeted at vulnerable people, including minorities indigenous people, migrants and people affected by conflict & disasters.
- Yoga, meditation in school and work places.
- Poverty reduction and social protection for poor.

Depression can be treated with psychological treatment, antidepressant medicine. The mental health Gap Action Programme (mhGAP) has produced evidence based guidance for non-specialist to enable them to better identify and manage range of priority mental health condition.

Why is there lighting then thunder ?

Thunderstorm are the most common type of storm. They happen when warm, damp air rises and them forms clouds as it cools. Thunderclouds are huge and black, and they stretch very high into the sky. The currents of air inside the cloud cause heavy rain, thunder and lightning.

Lightning is really a giant electronic, spark, which is after several kilometers long. Thunder is the noise made when the lightning causes the air to heat up and expand suddenly. When the explodes we hear the sound we call thunder.

A lighting flash, and the clap of thunder that comes from it, happens at the same time. We see the lightning first and hear the thunder later because light travels very quickly and we see it almost immediately. Sound travels much slowly and so takes longer to reach our ears. It is lightning is several kilometers away this may take a number of seconds.

Weather Resistant Ice Cream

Scientist in Japan have come up with a "cool" solution to stop ice cream from melting before you have had time to finish it. Ice cream starts melting just a moment after it is scooped from a container and placed into a bowl or on a cone Because of this people have taken to eating it quickly. Now, researchers from Kanazana University in Japan claim to have found a way to maintain the shape of Ice cream by increasing its melting point. The product can last three hours at room temperature with hardly any melting 'The Times' reported. The researchers tested the ice cream with a hairdryer, blowing hot air it fox five minutes and it retained its shape. Scientist have adapted the ice cream by injecting it with polyphenal liquid extracted from strawberries. "Polyphenol" liquid has properties to make it difficult for water and oil to separate. Therefore, an ice cream containing this liquid will be able to retain the original shape for longer then usual and be hard to melt. The weather resistant ice cream comes in different flavours including chocolate, vanilla and strawberry.

Spoken Worlds Can't Be Retrieved

A farmer insulated his neighbour. Realizing his mistake, he went to the preacher to ask for forgiveness. The preacher told him to take a bag of feathers and drop them in the center of town. The farmer did he was told. Then the preacher asked him to go and collect the feathers and put them back in the bag. The farmer tried but couldn't as the feather had all blown away. When he returned with the empty bag, the preacher said,

"The same thing is true about your words. You dropped them rather easily but you cannot retrieve them, so be very careful in choosing your words."

The Power and role of mass media

The Importance of the media, both written and electronic, cannot be overemphasized. In the modern world of quick communication and information, media plays a very crucial role. The print media today has undergone vast expansion. There are hundred of newspapers and magazines, giving information about events along with suggestions. Not to be left behind are the radio and television. While we are sitting in our drawing room at home. We can get information of all around the world, In democratic countries like India, mass media not only provide information but also influence public opinion. "George Bernard Shaw once said that it should be a crime to read a single newspaper". Today this applies to both the print and the electronic media if we wish to get balanced information.

Your Emotions

Why are people moody ? This happens because they have no control over their emotions. The first step in our life is to learn how to control our emotions. After a session in general, people would say that they got peace of mind, happiness and goodness. This happens but these are mere formal truths. We need to focus on how to overcome our emotions and passions by practice.

Physical stress can be removed with simple practice. And also practice makes a man perfect. We should develop the right perspective to overcome tension. Three paths have been enumerated for attaining liberation. Only one path is leading towards emancipation. It has three constituents:-

Right perspective, right knowledge and right conduct.

*Tension occurs in the absence of right knowledge. By adding right knowledge, our perspective would leave no scope for tension. And you can enjoy a stress free life.....***

LGBT [Section 377]

COMMUNITY

LGBT stands for Gay, Lesbian, bisexual or transgender. In India, this community (LGBT) is fighting for there right's for long time. In India, sexual activity between people of the same gender is legal but same-sex couples cannot legally marry or obtain civil partnership.

They fight for their rights and get a green signal when the supreme court of India, decriminalised homosexuality by declaring section 377 of the Indian Penal code. Section 377 is used to criminalize sexual activities "against the order of nature". But on 6th Sept. 2018, the Supreme Court of India ruled that the application of Sec 377 is natural or homosexual sex between adults is not crime or irrational or unconstitutional.

Eve Teasing

Our society is suffering from many Evils at this moment. One of the worst Evil is the Evil of Eve Teasing. Now eve teasing is one of the main threats for India because it is destroying the social balance. Eve teasing is a Euphemism used for sexual harassment, street harassment or molestation of women by men, with Eve being a reference to the biblical Eve. It usually involves young men annoying girls or women by making Sexual harassment in public places. School and college gates are the wayward of young men of disturbing girls or women. A fewed stare, a sly whistle, a well timed clap, a seemingly casual touch,, cheap gesture and many more acts which makes a woman uncomfortable includes in it. I don't think it would be wrong to say that eve teasing has become an inseparable part of every girl's life. Every man needs to be aware of 'how to treat a woman' Eve teasing in India has to do with woman empowerment and girl education. The traditional mindset often blames the eve teasing incidents on women that they provoke male by wearing Scanty clothes. This is actually a lame excuse. Even if female wear modern dresses if it doesn't give men licence to harass women. The answer lies in changing the mindset and incalculating

morals and values in our education system.

Real Problem is that girls are hesitant to inform their parents about an incident like this, because of social pressure. How ironical! I feel that parents should chat with their daughter and ask them to be bold when faced by such an issue and they should also advice their sons to not ever indulge in such cheap acts. Victims can make an Eve teaser sweat by raising a huge and cry immediately. The public should rushed to the step did of the victims girls and a more concrete step would be that of publishing photos of eve teasers in newspaper along with details of their unclean act. Stern follows up by police would help a lot.

I agree that Everyone has a pile of work to attend to, but they have to spare a few moments to take note of these aberrations in society and reprimands the Eve teasers sternly. This collective public behaviour will go a long way in curbing the menace of eve teasing.

How Google Controls Average Person ?

You may be wondering and thinking: "How can this be ?" The truth may strike you like lightning! Google knows each and everything about you. Google knows your address, the person you talk to the most, the place you visit often, the types of books you read, the types of brands you purchase, the types of sites you browse.

You must be wondering. "How" ?!"

Well, do you remember having filled in all the personal details while signing up for Google Mail or any other application such as Youtube, Google Maps, Play store, Google Drive, Google Photos etc. belonging to Google ?

Google knows each and everything about you. So, you see how Google controls an, average man or woman's life. All the advertisement that pop up when you are browsing, Google is behind them. The Sale promotional e-mails you receive; Google is behind them. Google always knows your exact presence location. Google knows when you do bank transactions and the phone bill payment schedule. It knows how much traffic you will encounter while travelling to a place.

Good Conduct Always

Our present education system imparts the bookish knowledge and an education that confines itself to impart knowledge is no education. Such an education has produced a vast population able to read but unable to distinguish what is worth reading. Obviously education is not only learning from books memorising some fact, just to pass exam examinations. Take a degree get a job and settle down, but also learning to be able to listen to the birds, to look at the sky, to see the beauty of a tree and to feel directly in touch

with them. Besides we should be able to understand the people who are living on earth, so that we come to know the realities of a human life. All these facts shape our conduct. Our conduct emanates our character which leaves indelible imprints of our "being" in the minds of people around us. Today, man does not care what's happening to his neighbours so long as he is perfectly safe. He is running a muck after money leaving his good conduct for behind, forgetting only good conduct would make him the richest "being" on earth.

You are living in the era of globalisation you have to learn differently in order to make yourself a complete personality. So, if you now begin to think to observe, to learn not only from books, but also learn for your self by watching, listening to every-thing that is happening around you, you will grow up to be a different human being.

Your every thought, word and deed, will help you in developing your personality which will be tested at every step of your career, and most of all at the time of your selection at the interview.

And good conduct does not mean, imitating others with politeness, nor does it mean to wish your elders with folded hands. It is something that originates in your heart for the benefits of the society at large. The quality of person's life is indirect proportion to his good conduct regardless to his chosen field of endeavour. It is an integral part of a good value system. Remember good conduct always pays.

Importance of Computer in the Modern Society

One of the best things about the computer is the fact that it can help us to save so much of manual power, cost, and time. By the use of a Computer, tasks can be done automatically and that will lead to saving the countless hours that may otherwise have been spent on doing the job manually.

Computer also ensure more accuracy. Examples of such cases include ticket booking, payment of bills, insurance and shopping. Interestingly automatic operations of vehicles like train also help to ensure further safety and reliability of the journey. It is also wonderful to see that the invention of this unbelievable machine has brought a ray of hope in the darkness of the sick citizen world. Computers are very capable of bringing allow a medical revaluation where in health sectors. Computers are very capable of bringing along a research regarding blood groups medical histories etc and helping to improve medicines in a big way. The knowledge that computer are providing in this field may lead to better use and purchase of medicinal drugs and ensure better health. This also leads to a better diagnosing pattern and makes health care faster and more efficiently.

Power of Words

Words are pale shadows of forgotten names. As names have power.

Words have power words can light fires in the minds of men. Words can bring tears from the hardest hearts. Language is among one of the most powerful tools. When used incorrectly, words slice like a knife "The pen is mightier than sword", is a famous phrase swords can never conquer the mind and heart of people and cannot build long lasting empires. However writers have proven to be more powerful than warriors. The strong ideas of various great writers are credited for destroying dictatorship in many parts of world. The words of them has encouraged the youth to fight against injustice. Human being is superior to animals, not because of his physical strength, but due to its ability to think differently it is not the sword, but the words which on the vehicle of thoughts. Writings can evoke different emotions as love, hatred, sympathy etc. we live and breathe words. Everything in life is writ able about, if you have the outgoing guts to do it, and the imagination to improvise. The worst enemy of creativity is self doubt. We write to taste life twice.

माता पिता और बच्चे

माता-पिता और बच्चों में बहुत ही सुंदर रिश्ता होता है। अपने बचपन में बच्चे के मुँह से निकला पहला शब्द माँ होता है। बच्चा पहील बार अपने पिता की उंगली पकड़ कर ही चलना सीखता है। बचपन से लेकर चलने तक, चलने से लेकर खाने-पीने तक न जाने अपनी होश में आने तक बच्चा कितनी ही गलतियाँ करता है। पर इस पूरे संसार में माता-पिता ही ऐसे शक्स होते हैं, जो सब गलतियाँ देखते हुए भी या सब कुछ सहन करते हैं। यह संसार का एक ऐसा रिश्ता होता है, जिसमें कोई स्वार्थ नहीं होता। इस रिश्ते में प्यार, गुस्सा या कड़वाहट आ जाती है आखिर क्यों? ऐसा इसलिए है, क्योंकि कभी हम एक दूसरे को समझ नहीं पाते, पर यह एक ऐसा रिश्ता भी है जहाँ कड़वाहट भी वस कुछ समय की ही होती है। लेकिन इस कड़वाहट से रिश्ता टूट नहीं जाता। बच्चे माँ-बाप के लिए कितने ही बड़े क्यों न हो जाए पर उनके लिए हमेशा बच्चे ही रहते हैं।

कई बार रिश्ते में इतनी कड़वाहट होती है, कि ऐसा लगता है, कि दूर होना ही ठीक है, पर ऐसा भी नहीं है कि रिश्ता पास रहकर ही निभाया जा सके या बोल के ही अपने प्यार को जताया जाए। मुझे नहीं लगता भारत को छोड़ के कोई ऐसा देश है, जहाँ बोल के प्यार जताया जा सके। इस रिश्ते में न कुछ बोल के, न कुछ समझाने की जरूरत होती है। कुछ माँ-बाप बच्चों को गुस्सा करते हैं, लेकिन उस गुस्से में भी कहीं न कहीं प्यार या फिक्र छुपी होती है। कभी बच्चों, की तरफ से भी अपने माता-पिता के लिए कुछ गलत निकल जाता है, पर माता-पिता की तरह ही बच्चों के मन में उनके लिए प्यार ही होता है, बस बात समझने की है। बच्चे या माता-पिता कभी बोल के व्यक्त नहीं करते कि वो एक दूसरे से कितना व्यार या चिंता करते हैं। इसलिए आखिर में बस सबसे निवेदन है, कि कभी इस संसार के सबसे सुंदर रिश्ते को टूट के बिखरने न दें। एक दूसरे को समझें, हमेशा प्यार बनाएं रखें।

"An Article on Mobile Phone"

The mobile phone first appeared in India sometime in the nineties. It was a bulky box quite similar to the land lines we still use today. It had an equally big antenna and was heavy and cumbersome to carry. That was just the beginning. Very soon they were all over the place. With the alarming speed at which they shrunk in size, these pocket sized wonders, sure packed a punch. Mobile phone can send text messages, they can send and receive video messages and they have a host of facilities that somehow make the "talk or the move function seem redundant.

In India almost everyone, everywhere, seems to have one. The vegetables vendor, students, the office goers, almost everybody irrespective of economic status has a cell phone.

Thanks to the cell phone everybody is available almost all of the time. Through your cell you can go online & check your E-mail. You can play games on your cell phone to kill time. You can even listen to music on the cell. Both their other hands holding on to their individual cells talking to other people.

Artificial Intelligence

Artificial Intelligence is basically the science and technology of making intelligent machines, especially computer programs. AI in simple terms machines and computers learning, thinking and doing what human intelligence does.

Researchers are creating systems and programs that could mimic human thoughts and try doing things that human could do. The AI is a combination

of computer science, physiology and philosophy.

There are two major methods and approaches that are being used in Artificial Intelligence are the bottom up and top-down methods. The bottom-up theorists believe that the best way to achieve the AI is by building electronic replicas similar to the human brains complex network of neurons, whereas the tap-down theorists believe in mimicking the human brain's behaviour with computer programs.

The Artificial Intelligence research is highly technical and specialized.

AI is something which impacts our everyday life. This can lead mankind to a life of ease like never known before when lot of what they had to perform is done to perfection with the help of AI aided robots or machines.

Yes, there are benefits of AI that we are yet to see that for outweighs there assumed dangers.

There was a time called the beginning when God created man in his image and likeness. But man running independent of God is capable of act & deeds that more the purpose for which man was created. We see the impact of that in the environment as well as in senseless destruction through wars and man's greed.

Likewise AI created by man to have the complex ability to thing and act like human beings can act in destructive mode if something goes wrong. Robots can someday gain enough intelligence to challenge the might of man. Though it might be in the future, we might lose out sleep on it this very night.

Mobile Phone

Mobile means a thing which we can carry any where. Today we can see that caraze for mobile phone increasing day by day. Because we can carry it every where very easily and it helps us very much in this busy life. It is just a small computer.

But as we know every important things have too aspects and its merils and demerit. First of all I will discuss about its merits. All people know that mobile phones are necessary for them.

We can talk by mobile phone anywhere. It can also solve our problem. It is the source of our intertainment. Mobile has many function like calculator, videos, audio, radio etc, though we can get knowledge. Now I shall want to discuss about its demerits. It is not very good for our health.

Because it generates radiations which cause heart problems. Even it can also brust while driving some people use there phones which is very bad.

Craze of phone also increasing among our youths. Student also using the mobile phone. They should concentrate on their studies. Some students are using the mobile phone is wrong way and spoiling their lives.

So, I can give the message that student should not use mobile in wrong way. But they can use it for studies purpose and even all the human beings should use mobile phone in limited way.
