Principal's Message.....

Dear Students,

I extend my warm wishes to all the readers for the publication of the college magazine 'Ambika' for the session 2021-22

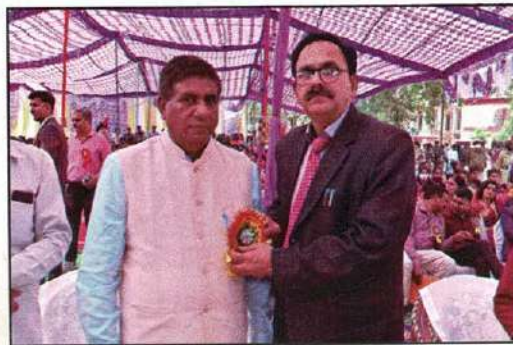

This is a platform for all to contribute their creative works like articles, poetry, essays etc. All this contribution provides an opportunity to all the readers to enhance their knowledge in the various fields and inspire others for the forth coming edition of the magazine.

I further place on record my felicitations to the students for their efforts in giving it a final shape. My special thanks to the printing agency for their timely effort in printing this magazine

Corona - Friend or Foe For Students

These days corona is less active, but the previous two years were very difficult to handle. Corona was going out of its limits, the first wave was at its peak. There was lockdown in India for months. The situation was out of control. In this situation, it was impossible for the educational institutions to remain open, so they were closed until the situation was under control, online classes were scheduled for the students so that they can continue their studies, but there was no comparison of official classes with the online classes. The govt. had to pass the students without taking their exams. Students were happy because they were passing a year without even opening their books. Students, then thought that it was good for their career, but their thinking was wrong. Corona was not their friend because if they were passed without studying. They don't know what should be read for the next year. In a college, if a student is promoted to 2nd year, so what he/she knows from the first year, but there was no other way for the students or government. Now, if you ask a student what he/she has read last year, he/she will see at your face. Corona is like a sweet poison for the students because they were passed without studying and promoted to the next year, what knowledge they have got last year is zero. Students were happy then, but now they came to know that there will be offline exam, they are seeding vanished. All are thinking this time, please corona help us in studying, because they are getting a habit of passing. So corona is first a friend and then an enemy of the students forever.

Abhishek Kaundal

20EN050

An Ideal Student

An ideal student is one who is all around the best student. He does nothing that may bring bad name to his school and family.

An ideal student is an early riser. He believes in simple living and high thinking. He tries to help fellow-students with their studies. He is always regular and hardworking in his studies. He never shirks work and does his homework regularly. He believes in the saying that work while you work and play while you play because that is the way to be happy and gay.

An ideal student never quarrels with anybody. He loves everyone and everyone loves him.

Shweta Choudhary

Humans And Nature

We human are most intelligent creatures on the earth that's why we are dominating all other species on the earth. Which means it becomes our responsibility to take care of our mother nature. Earth is the only place which has life and called as home of livings. But due to humans' greed, he has exploited all the natural resources. Humans impact the physical environment in many ways: overpopulation, pollution, burning fossil fuels, and deforestation. Changes like these have triggered climate change, soil erosion, poor air quality, and undrinkable water. Mind-set of human is towards how to earn money so that they can fulfill their needs and desires. Human being is damaging the nature in order to fulfill his desires which results in climate change, natural disasters, global warming. We humans are responsible for fixing these problems. Awareness and education is the only solution of this problem. Through education, people can able to know the value of nature. If nature is healthy, everyone is healthy. So humans have great part to play and have potential to do better.

Diksha

21ENG017

My Mother

My Mother is a great person who cares for me, protects me from all my problems. She will always care about my health and food. Her love for me is unconditional and sacrifices all her needs and wishes. Mother symbolizes love and care and no one can imagine a perfect family without her. She fills the gap in life and without her, life seems meaningless.

Kavita Krishna

Look At The Bright Side

One day, a professor entered his classroom and asked his students to be prepared for a surprise test. They all waited anxiously at their desks for the exam to begin. The professor handed out the papers with the tent facing down as usual. Once he handed them all out, he asked the students to turn over the papers. To surprise everyone, there was no question but just a black dot in the center of the papers. The professor seeing the expression on everyone's face says, "I want you to write about what you see there. The students got, start'ed on the inexplicable task. At the end of the class, the professor collected all the papers and started reading out each one of them aloud in front of all the students. All of them with no exception defined the black dot trying to explain its position in the centre of the sheet. After that professor started to explain: "I am not going to grade you on this, I just wanted to give you something to think about". No one wrote about the white part of the paper. Everyone focused on the black dot. So many things happen in our live however, we insist on focusing only on the black dot, the complicated matters of life, the disappointments.

Roll No. 20EN00

Difference Between Successful And Unsuccessful People

Unsuccessful people have a negative attitude. They are very good at finding faults in everything. You could say that their favorable pastime is criticizing. In every opportunity, unsuccessful people will find problems. They feel to think of solution but tend to magnify every problem. Unsuccessful people are devastated by their failures and look for ways to blame it on something else. They do not look upon their mistakes as a chance to learn, instead, they are easily disheartened and tend to give up soon.

Successful people always try to improve. They push themselves to step outside their comfort Zone. They are comfortable in taking risks and even view their failures with a positive frame of mind. They want to explore opportunities to grow and advance their careers. They have a very strong sense of awareness however they are not self-oriented and do not work with only their personal goals in mind.

So, the difference between a successful person and others is not lack of strength or a lack of knowledge, but rather a lack of will.

Hritick Sharma

20EN009

Creativity

Creativity is the act of turning new and imaginative ideas into reality. Creativity is characterized by the ability to perceive the world in new ways, to find hidden patterns, to make connection between seemingly unrelated phenomena, and to generate solution. Creativity involves two processes thinking, then producing. If you leave ideas but don't act on them, you are imaginative but not creative . Creativity is a combinatorial force: it's our ability to tap into our 'inner' pool of resources knowledge, insight, information, inspiration and all the fragments populated in our minds that we have accumulated over the years just by being

present and alive and awake to the world and to combine them in extra ordinary new ways. "Creativity is the process of beginning something new into being, creativity required passion and commitment. It brings to our awareness what was previously hidden and paints to new life". A product is creative when it is novel and appropriate. A novel product is original not predictable. The bigger the concept and the more the product stimulates further work and ideas, more the product is creative. Some people say, creativity has nothing to do with innovation, that innovation is a discipline, implying that creativity is not well, I disagree. Creativity is also discipline and a crucial part of the innovation equation. There is no innovation without creativity, the key metric in both creativity and innovation is value creation.

Creativity begins with a foundation of knowledge, banning a discipline and mastering a way of thinking. You can learn to be creative by experimenting, exploring, questioning assumption, using imagination and synthesizing information learning to be creative is akin to learning a sport. It requires practice to develop the right muscles and a supportive environment in which to flourish.

20EN046

Child Abuse

Child abuse is a very less - talked - about topic. There is very little data available on this. But it is a grave matter of concern. Child abuse includes sexual aggression, beating as well as attracting hours of labour from children. Such abuses are mainly caused by the life situations of the families living below poverty line. In such families, Children are forced to become a part of the labour force from a very small age. Child labour has been divided into four categories :-

1. Who work in factories, workshops and mines.
2. Who are bonded.

3. Who are street children
4. Who from the part of the familial labour force.

Because of the poor financial conditions of their families, the children are left with on other option but to work for a living, in that age when they are supposed to go to school or be at play. The injustice done to these children does not stop here. They have to work under inhuman conditions. They are treated as slaves. They are given severe punishments both inside and out side their homes. These punishments include beating and lashing.

After knowing about such miserable conditions of poor children, many national and international organizations have come together to stop the injustice done to the children. Child labour has become an emotive issue. Child Labour has now became a global issue. So a lot of things are needed to be done in order to eliminate child labour completely

However, it would not be fair to categorise child labour as purely a medium of exploitation. Abject poverty existing in the country has made child labour a necessary evil. And this evil is aggravated by the economic compulsions of the poor families. For all those children who do not work for wages, but work as a contributor to their family, to sponsor their own education or for their leisure, such work must be regarded as a right for their needs. But it must also be kept in mind that no exploitation of any sort should be there.

that no exploitation of any sort should be there

20EN048

Success

Success is a journey, not the destination. Success does not come to those who wait and it does not wait for anyone to come to it. It often comes to those who have the aptitude to see way down the road. A successful person keeps moving. He makes but doesn't give up. The road to success is not to be sum upon by seven leagued

boots. Step by step, little by little, bit by bit, this is the way to wealth, that is the way to glory. The difference between a successful person and others is not the lack of Strength; not the strength of knowledge, but rather the lack of will. Time plays an important role in success as time commands success and achievement. One important key to success is preparation. Success is willing to do what an average person is not willing to do. The secret of success in life is to be ready for the opportunities when they come. Life's real failure is when you do not realize how close you were to success when you gave up. Success is the state of mind. If you want success, start thinking of yourself as success. The key to happiness is having dreams and the key to success is making your dreams come true.

:Yesterday's failures are today's seeds that must be diligently planted to be able to harvest tomorrow's success abundantly.

Shalini

20EN024

Try Try Again

Life is made of success and failure. One can not succeed all the times. But some people lose their heart after their first failure. One failure discourages them for life. They do not try again. But this is wrong. The secret of success lies in never losing heart. We should go on trying again and again until we reach the goal. Weak persons give up the struggle very soon. But great men go on trying. We all know the story of the king Bruce . He saw a spider which tried again and again and succeed at last. We Should not lose heart. When there are difficulties, we should try again and again. In the end, we will succeed.

What is Struggle ?

Struggle is just like an assistant of our life which orderes to fulfill our desires. Struggle is just like a teacher that always teachers us about mistakes which were committed by us in the past and taught us to have courage to improve these mistakes in future.

Struggle has a great importance in our life because without this, one cannot give preference to hard work.

Life of Soldiers

A Soldier is the most important asset to any country. Soldiers are considered to be the indestructible force that protects the country from any threat. A person who serves in an army is said to be a soldier. The life of a soldier is not easy and is based on sacrifices and selflessness. A soldier puts his or her life in danger in order to protect the country. A soldier's importance in our life is plenty. A soldier is not only the person who is in uniform but also a person who develops specific traits which include loyalty, duty, respect, courage, honor etc. Soldier's life is a life filled with pride and dignity. They have to be on duty even

even during national holidays and are sometimes away from their family and friends. So, every citizen of their country should consider soldiers as their role model because it is not easy to live the life of a soldier.

SALUTE TO OUR REAL HERO'S JAI HIND

Anchal

20EN005

Failure is the Stepping stone to success

It is said that if a person fails once, he should not lose heart. He must observe the mistakes that lead him to failure and try to overcome them in his next attempt; repeated efforts lead one to success. Life is a long journey and in the course of life and career, one has to face many ups and downs. Failure gives a

better point of view through which we can march to success. Most people fall into depression or lose hope when they face failure. Failure is a great teacher, it makes us think, it makes us learn and above all, it makes us become better individuals. We learn from our mistakes and face new challenges with optimism and courage. Failure, like success, is a part of life. A person who has faced failure in life will always realize the value of success. But a successful person who hasn't faced failure will never know what hard work and perseverance mean and therefore, he/ she will not be able to maintain that success.

Palni

20EN007

The Butterfly (Struggles)

A man found a cocoon of a butterfly. One day, a small opening appeared. He sat and watched the butterfly for several hours as it struggled to force its body through that little hole. Until it suddenly stopped making any progress and looked, it was stuck. So the man decided to help the butterfly. He took a pair of scissors and snipped off the remaining bit of the cocoon. The butterfly then emerged easily, although it had a swollen body and small, shriveled wings.

The man didn't think anything of it and sat there waiting for the wings to enlarge to support the butterfly. But that didn't happen. The butterfly spent the rest of its life unable to fly, crawling around with tiny wings and a swollen body.

Despite the kind heart of the man, he didn't understand that the restricting cocoon and the struggle needed by the butterfly to get itself through the small opening, were God's way of forcing fluid from the body of the butterfly into its wings. To prepare itself for flying once, it was out of the cocoon.

Moral of the Story :- Our Struggles in life develop our strengths. Without struggles, we never grow and never get stronger, so it's important for us to tackle challenges on our own, and not be relying on help from others.

Preeti

20EN027

Importance of Education

Education is the most important factor for the development of human civilization.

Education provides the nation with man power and promotes national unity and uplifts public awareness. A country needs different kinds of manpower such as doctors, engineers, teachers, administrative officials, economists, judges and other technical hands. Education provides the nation with educated hands. If people are educated, they can understand their duties and rights in order to uplift the human society. People should be able to understand each other, they should be united. Thus education can promote national unity. In order to uplift the degree of awareness of the society, education plays a prime role. It makes all the people conscious. They will not follow the old evil traditions. Educated people can reform the society. They can understand what is wrong and what is right. They can save good traditions. Education profoundly enhances human prosperity.

Education is the Foundation of the future.....

Palvi

20EN023

Student Life

Student life is the happiest period in the life of a person. It is a life, free from all anxieties of the tough world. The mind of the students is full of noble ideas and his eyes are full of dreams. His studies are his preparations for the struggle of life. If properly utilized, student life lays the foundation of future, its success and achievements. If misused, defeat is sure. However earned may out future efforts be. Student life is the most crucial period in the life of a person. Although there are no worldly cares to worry about the time, the period is very important for the student himself, for he has to be up and doing in the formation of his character and in making contact with the world about him. The impressions, he will gather at this period will develop in student life. It will influence his behavior towards other people throughout his future career. It is therefore necessary that a right and proper use of the period is made with the utmost care.

20EN026

Respect

If we cannot respect another how can we expect them to respect us. If we can not respect some one's belief . How can we expect them to respect ours. If we can not respect others. How can we expect respect in return. Everyone expects respect No matter who they are, the only way to gain it, is to start treating everyone as a friend, a brother, a sister. As a part of our extended family, no matter what color or creed they are. Only then, you will start to get the respect you dearly crave.

Talib

20EN017

Nature : A Great Teacher

Nature is like a mother. It is essential for us because it provides all the basic needs of life. Nature is also a great teacher. We can learn many lessons from her. The flower blooms only for a day, but it keeps smiling till the end. This is a lesson for us. We should live our life to the fullest, how short it may be. Water is soft but it flows over hard rocks, the rocks give in. In the same way, our problems may be difficult but if we persist, they too give in. Tiny ants organise themselves and carry away heavy insects. They teach us that we can do impossible task through teamwork. Similarly, the bare tree in winter come back to its green majesty once again in spring. We can learn from it that the difficult time will never remain with us forever. Thus, nature is the greatest gift of god to mankind. Every object of nature teaches us something about life

सम्पादक की कलम से

प्रिय साथियों

महाविद्यालय की वार्षिक पत्रिका 'अम्बिका' हमें अपनी सृजनशील प्रतिभा को प्रकट करने का अवसर प्रदान करती है और यह मेरे लिए अपार हर्ष का विषय है कि इस वर्ष यह कार्यभार मुझे सौंपा गया है। इसके लिए मैं उन सब के प्रति आभार प्रकट करना चाहता हूँ और धन्यवाद देना चाहता हूँ जिसके सहयोग और मार्गदर्शन से यह कठिन लगने वाला कार्य सहज हो सका है। मैं सभी छात्र बन्धुओं का भी आभारी हूँ और हिन्दी की प्राध्यापिका सुजाता जी का धन्यवाद करता हूँ जिनके आशीर्वाद से मुझे सम्पादन कार्य को करने में सफलता मिली है। रचनाओं की मौलिकता सबसे बड़ी चुनौती है। स्वयं मनन चिन्तन और फिर सृजन में ही पत्रिका की सार्थकता है। इन्हीं शब्दों और मंगल कामनाओं के साथ प्रस्तुत है— महाविद्यालय की पत्रिका अम्बिका का हिन्दी अनुभाग

सपना

यह मेरी स्वयं रचित रचना है।

पंछी की तरह उड़ जाऊँ मैं,
लोगों से कुछ अलग कर दिखाऊँ मैं।
आसान जिदंगी तो सब जीते हैं,
कांटो की राह पर चल कर फूल बनकर खिल जाऊँ मैं।
खुद को कुछ ऐसा बनाऊँ मैं,
कि बड़ी भीड़ में सबसे आगे निकल जाऊँ मैं।
दुनिया के किसी कोने में जाऊँ,
अपनी सूरत से नहीं हुनर से पहचानी जाऊँ मैं।
सबको अपना एक रंग दिखाऊँ मैं,
कि दुनिया की आँखों में बस जाऊँ मैं।
हर परीक्षा को पार कर लूँ,
एक दिन आसमान को छूँ जाऊँ मैं।

बेटी

यह मेरी स्वयं रचित रचना है।

जब- जब जन्म लेती है बेटी,
खुशियाँ साथ लाती है बेटी।

ईश्वर की सौगात है बेटी,
सुबह की पहली किरण है बेटी।

तारों की शीतल छाया है बेटी,
आंगन की चिड़िया है बेटी।

त्याग और समर्पण सिखाती है बेटी,
नये - नये रिश्ते बनाती है बेटी।

जिस घर जाए, उजाला लाता है बेटी,
बार - बार याद आती है बेटी।

बेटी की कीमत उनसे पूछो,
जिनके पास नहीं है बेटी।

सच्चाई

यह मेरी स्वयं रचित रचना है।

रात का अंधेरा ही काफी होता है,
किसी को पहचानने के लिए।

पर दिन का उजाला भी कम होता,
अपने आप को जानने के लिए।

चंद शब्द ही बहुत होते हैं,
किसी को लड़वाने के लिए।

'शब्द कोश' खाली हो जाते हैं,
लड़ाई को सुलझाने के लिए।

जिंदगी के हर मोड़ में सुनहरी याद रहने दो,
जुबान पर हर वक्त मिठास रहने दो।

यही तों अंदाज है जिंदगी जीने का,
न खुद रहो उदास न किसी को उदास रहने दो।

कुछ रिश्ते खुदा बनाता है,

कुछ रिश्ते लोग बनाते हैं
पर कुछ लोग बिना रिश्तों के ही रिश्ते निभाते हैं,
शायद यही दोस्त कहलाते हैं।

गुरु का महत्व

विद्यार्थी जीवन में गुरु का बहुत महत्व होता है। गुरु के बारे में लिखने के लिए मेरे पास क्या दुनिया के किसी भी विद्यार्थी के पास शब्द नहीं होंगे। क्योंकि गुरु एक ऐसा शब्द है जिसके बारे में लिखना आसान बात नहीं है। गुरु से ही हमें आगे बढ़ने की सीख मिलती है, और माता-पिता के बाद गुरु की ही प्रेरणा से हमें शिक्षा प्राप्त होती है, और भविष्य में कुछ करने की चाह उत्पन्न होती है। कोई भी विद्यार्थी सोचता है कि वह पढ़ाई के क्षेत्र में उन्नति नहीं कर पाता/पाती है और वह उदास या निराश हो जाते हैं फिर गुरु ही उन्हें समझाते हैं, उसे खेल प्रतियोगिताओं में भाग लेने के लिए कहते हैं या किसी और प्रतियोगिता में जिसमें उसकी रुचि हो, इससे ही हमें गुरु के महत्व के बारे में पता चलता है कि विद्यार्थी के जीवन में गुरु का क्या महत्व है।

जिंदगी

यह मेरी स्वयं रचित रचना है।

लौट जाता हूँ वापस, घर की तरफ हर रोज थका हारा।
आज तक समझ नहीं आया,
कि काम करने के लिए जीता हूँ।
या जीने के लिए काम करता हूँ।

बचपन में सबका बार-बार पूछा गया सबाल
बड़े होकर क्या बनना है,
जवाब आज मिला
फिर से बच्चा बनना है।
थक गया हूँ तेरी नौकरी से ऐ जिंदगी।
मुनासिब होगा मेरा हिसाब कर दे।
दोस्तों से बिछड़ कर ये हकीकत खुली
बेशक कमीने थे, पर रौनक उन्हीं से थी।

भरी जेब ने दुनिया की पहचान करवाई,
और खाली जेब से अपनों की।
अब लगे पैसे कमाने तो समझ आया,
कि शौक तो माँ-बाप के पैसों से पूरे होते थे।

अपने पैसों से तो बस जरूरतें ही पूरी हो पाती हैं,
हंसने का दिल न हो तो भी हँसना पड़ता है,
कोई जब पूछे कैसे हो !
मजे में हूँ, कहना पड़ता है।

ये जिंदगी का ड्रामा है दोस्तों,
यहाँ हर एक को नाटक करना पड़ता है।
मचिस की जरूरत यहाँ नहीं पड़ती,
यहाँ तो आदमी, आदमी से जलता है।

राष्ट्रभाषा हिंदी पर सुन्दर कविता

यह मेरी स्वयं रचित रचना है।
जन-जन की भाषा है हिन्दी, भारत की आषा है हिंदी।
जिसने पूरे देश को जोड़े रखा है, वो मजबूत धागा है हिंदी।
हिन्दुस्तान की गौरव गाथा है हिंदी, एकता की अनुपम परम्परा है हिंदी।
जिसके बिना हिंद थम जाए, ऐसी जीवनरेखा है हिंदी।

.. कोविड तुझे हरायेंगे ..

लाख डरा ले लाख , सत्ता ले आगे बढ़ते जाएंगे।
नई ऊर्जा संकल्पों से कोविड— तुझे हरायेंगे।
ये भारत है संघर्षों का इसका इक इतिहास रहा,
कभी न इसने हिम्मत हारी ,ली चुनौती संत्रास सहा।
मिलजुल कर पूरी ताकत से कोविड तुझे भगाएंगे,
अभी कठिन है वक्त और संयम से हमको रहना है।
साफ— सफाई सोशल डिस्टेंसिंग करना और कराना है,
दो गज की दूरी का पालन मंत्र यही दुहरायेंगे।
एक यही आवाज़ आ रही कुछ ना होगा रोने से,
तन मन की पूरी ताकत से लक्ष्य नया हम पाएंगे।
आगे ही आगे बढ़ना है,ख्वाब नये फिर बुनना है,
अपने सपनों की बनियादें, आकाशों को चुनना है।
गीत सर्जना के ,हम फिर से झूम के गाते जाएंगे।

कला रूप के मंच सजेंगे, रास-रंग ले आएंगे।
 मां सरस्वती माँ लक्ष्मी की कृपा फिर से बरसेगी,
 सुर-लय-ताल की त्रिवेणी में हम जग को नहलाएंगे।
 मेहनत और रियाज से अपनी नैया पार लगाएंगे,
 फिर से फूल खिलेंगे, फिर से अपना गुलशन महकेगा।
 दूर अंधेरे होंगे सारे कोना-कोना चमकेगा,
 नई रोशनी से भारत को फिर से हम चमकाएंगे।

Pegasus Spyware

A spyware is a software with malicious behavior that aims to gather information about a person or organization and send it to another entity in a way that harms the user. To know about the pegasus spyware, firstly we should be aware of the word pegasus, this word came from greek mythology which describes a mythological white horse with wings. It was called as pegasus.

But In modern world, Pegasus is spyware, which is developed by israel company known as the NSO group in April 2017. The NSO stands for (Niv Carmi, Shalve. Hedio, Omri lavie) Basically, the name of three founder of the company. NSO claims that they made pegasus to help the government intelligence and law enforcement agencies do use this to fight against crime and terrorism. The cost of buying the pegasus spyware is very high even for the government . It apparently costs 4 crore for installing the software and 5 crore if you have to install it on 5 phones

Pegasus is probably the most advanced piece of spyware ever developed. It is effectively the most invasive form of surveillance imaginable. It is based on zero click technology i.e there is no need to click on any message or link. One thing pegasus need just your phone number. It can turn on your microphone when you are not using phone just record what you are doing in the room, it can turn on your screen, it can access your GPS, it can monitor you and it can do all this without you ever knowing.

So, if you are someone who thinks that you are safe because you use whatsapp which is end-to-end encrypted or you use signal, it is really meaning less once that pegasus is on your phone. Pegasus can infect both ios and android while remaining virtually undetectable. It is a self-destructable i.e. when someone came to know that he/she is on spy, it destruct itself before going to any forensic

investigation. Pegasus provide full access to the potentially targeted phone while remaining virtually undetectable.

But the implication of this software being used widely are effectively an end to privacy for the people who are targeted by it. Recently, France based NGO, forbidden stories, revealed a hacked list with more than 50,000 phone number and they claimed that the phone numbers belong to the people who have already been spied on using pegasus or the potential target of being spied in the future.

The name in this list are journalist, academics, lawyers politicians, government officials, even the judges of supreme court and also included head of the country. In India, this list had the names of 300 Indians who were allegedly spied on 2017 and 2019.

A spyware that was apparently created to spy on criminals and terrorist now being used to spy on politicians, journalists, activists, former supreme court judges and even the election commissioner, Is it fair to do so in a democratic country ? absolutely not. I do believe that it poses a greater threat to democracy. Its exposing that a lot of these technologies that are meant to keep us safe are on our phones and even if we are some what aware of it that they are really not keeping us safe. To be protected from such pegasus level hacking to do something at an individual level, is next to impossible. The only things you can do use less phone, do not carry phone everywhere, For more safety, you can use VPN serves which is able to hide your location for long time.

Thanku you

Shivani Rattan Bhardwaj

21BCS013

Computer Virus

A program or script that is loaded and executed on a computer without the knowledge of the user. A typical computer virus is a very small program, several kilobytes or less in size, constructed in matter of hours or days. When it is executed, the virus may generate undesirable results and may negatively affect the behavior of computer. Virus also known as malicious or malware programs, that can create, move, erase, consume a computer's memory, capture information, slowdown a computer and replicate and send deceitful e-mail messages to others computers. (A virus can not only harm the system on which it is saved and executed, but can also attach itself to another program and spread to other computers automatically).

Worst Computer Viruses in History :-

Computer viruses are damaging and costly plague on our intrnet connected world. More than 3,50,000 new pieces of malware are discovered every day, with an annual cost of over 55 billion dollars (40,00,00,00 00, 000 indian currency). But one virus named- the mydoom virus in 2004 leads the pack with 38 billion dollars (around 28,00,00,00,00,00 indian currency) in damages, and its installation - adjusted cost is actually 52 bill dollars, its also known as novarg. This malware is technically a "Worm" spread by mass e-mailing. At one point, the mydoom virus was responsible for 25% of all emails sent. Some other worst viruses name- Sobig, Kleg, I LOVE YOU (Spread to more than 10 million Pcs), wanna-cry, Zeus, Code Red, Slammer, GYPTOLCKER

How to protect PC from viruces:

Use an Anti-malware app = Installing an anti-malware app and keeping it up to date can help your PC against viruses and other malware (virus) (Having too much apps is not always better) Running multiple anti-virus apps at same time can cause your system to be slow ar unstable.

ii) Use a pop-up blocker with your internet browser= pop-up windows are small browser windows that appear on top of the website you are viewing. Most are created by advertisers, they can also contain virus or unsafe code. A pop-up blocker can prevent some or all of these windows from appearing.

iii) Use your internet browser's privacy settings - some websites might try to use your personal info targeted advertising, fraud and identity theft all modern browsers have privacy settings that you can enable to control what sites can see or do.

iv) Don't open email messages from unfamiliar senders or email attachments that you don't recognize. many viruses are attached to email messages and will spread as soon as you open the attachment. It is best not to open any attachment unless its something you are expecting.

v) Keep windows updated :- periodically, microsoft releases special security updates that can help protect your pc. These updates can help prevent viruses and other malware attacks by closing possible security holes.

Charles Babbage

Charles Babbage born on 26 December 1791- died on 18 October 1871 was an English Polymath. A mathematician, Philosopher, inventor and Mechanical Engineer, Babbage originated the concept of a digital programmable computer.

Babbage's machines were among the first mechanical computers. That they were not actually completed largely because of funding problems and clashes of personality, most notably with George Biddell Airy, the Astronomer Royal.

Babbage directed the building of some steam- powered machines that achieved some modest success, suggestion that calculations could be mechanised.

For more ten years he received government funding for his project, which amounted to Rs. 17,000 but eventually the treasury lost confidence in him.

while Babbage's machines were mechanical and UNWIDELY, their basic architecture

was similar to modern computer, the data and program memory were separated, operation was instruction based the control unit could make conditional jumps, and the machine and a separate I/O unit.

BACKGROUND ON MATHEMATICAL TABLES

In Babbage's time, printed mathematical tables were calculated by human computers in other words by hand. They were central to navigation, science and engineering as well as mathematics. Mistakes were known to transcription as well as calculation.

At Cambridge, Babbage saw the fallibility of this process, and the opportunity of adding mechanism into its management.

In 1812 he was sitting in his rooms in the analytical society looking at a table of logarithms, which he knew full of mistakes, when the idea occurred to him of computing all tabular functions by machinery. The French government had produced several tables by a new method. Three or four of their mathematicians decided how to complete the tables, half a dozen more broke down the operations into simple stages, and the work itself, which was restricted to addition and subtraction was done by eight computers who knew only these two arithmetical processes. Here, for the first time, mass production was applied to arithmetic, and Babbage was seized by the idea that the labours of the unskilled computers (people) could be taken over completely.

Difference Between Human Being and Computer

Human Being and Computer both are different in many ways some of them are :-

- I) Human has a brain that helps us to think that leads to generate creativity and allows us to build decision making power where as decision making doesn't exist in computers.

- ii) Human Brain is efficient speeds & it doesn't require any software to perform this task whereas it can't possible in computer without any additional software.
- iii) Human can think and express their emotions as per desire where as computer system doesn't consist of desires & emotions it only follows the instructions given by user.
- iv) A computer is a machine that needs software to execute action & it also needs high speed for processing that works digitally it can impliment much staff in same time where as human being doesn't require any software or processors to do so.
- v) A Human being is a living soul with mind, body who breathes air & require food for survival where as computer is a machine that needs electricity & operating system to work

Kevin David Mitnick

The most dangerous hacker of the world is Kevin David Mitnick. Kevin David Mitnick is an American Computer security consultant, author, and convicted hacker. He is best known for his high-profile 1995 arrest and five years in prison for various computer and communications-related crimes. Mitnick's pursuit, arrest, trial and sentence along with the associated journalism, books and films were all controversial. He now runs the security firm Mitnick Security Consulting, LLC. He is also the Chief hacking officer and part owner of the security awareness training company now be4, as well as an active advisory board member at zimperium, a firm that develops a mobile intrusion prevention system.

He was the most elusive computer break-in artist in history. Once one of the FBI's most wanted because he went on an electronic joyride during which he hacked into more than 40 major corporations just for the challenge and not for monetary gain. Kevin is now a

trusted security consultant to the fortune 500 and governments worldwide. He and his team of white-hat hackers now maintain a 100% successful track record of being able to penetrate the security of any system they are paid to hack into using a combination of technical exploits and social engineering. "The World's Greatest Hacker" for news "The World's most famous Hacker" "CNN" In our world Kevin Mitnick is our David Beckham or Lebron James "KPMG" if hacker were rock stars, Kevin Mitnick would be Mick Jagger "News His " security awareness training is the most popular in the world of its type in the world.

Role of Computer in Our Life

Use of Computer in our life is incredibly necessary. Computer Science is evaluated and challenged by human everyday. From Engineers to Doctors, students to Teachers, entrepreneurs to investor, government organization they all use it to perform specific tasks, for entertainment, Online earning and office work. Computer have brought about a great change in our life. There is hardly any field of rapid development. Computers not only work for us, they also think for us. It is difficult to imagine what role computer will play in our future life. They can already do the most impossible and most unimaginable things. The only thing left for them to do is to computerize human beings also. We can imagine a time when microchips will be inserted in the human brain and all thinking will be then done by these chip inserted on the mind. From a simple calculator to a complicated square craft computers have become an inseparable part. The field of computers is a field of rapid development. It will become possible to give commands to all kinds of workers through remote control devices. In fact, the mind boggles to think what computers could be able to do in the future. Perhaps they will be able to take over

all the functions of man and reduce that world to a world of robots only. The computer is a very vast field in every sector and every aspect of life. Computer changed our life in these two decades and now it is a necessity to use a computer in daily life to there in the technologies world.

Internet Networking And Connectivity

DNS (Domain Name Server)

This can help recognise an IP address used by domain name.

FTP (File Transport Protocol)

Which moves a file between computer using the internet.

HTTP (Hyper Text Transfer Protocol)

It is a set of instructions for the software that controls the movement of files on the internet.

IP (Internet Protocol)

Which is the set of rules that govern the system connected to internet. IP address is a digital code specific to each computer that is hooked up to the internet.

ISP (Internet Service Provider)

It is the Company which provides internet service. So, you can connect your computer to the internet.

LAN (Local Area Network)

Which Consist of the servers that your computer connects to in your local area.

PPP (Point to Point Protocol)

It is the set of rules that allow your computer to use internet protocols using phone line and modem.

SEO (Search Engine Optimization)

The purpose of SEO is to increase the quantity and quality of inbound traffic to your website)

URL (Uniform Resource Locator)

Which is a path to a certain file on the world wide web. It is what you may called the web address.

USB - (Universal Serial Bus)

Which is used for communications between certain devices. It can connect keyboards, Camera, Printers, mice, flash drives and other devices.

VR (Virtual Reality)

It stimulates a three dimensional scene on the computers and has the capability of interaction. This is widely used in gaming.

VRML (Virtual Reality and Markup Language)

It allow the display of 3D images.

WYSIWYG (What you see is what you get)

its basically means that the printer will print what you see on your monitor.

Some of acronyms used in the computer fields and daily life.

BASIC	Beginner's All-purpose Symbolic Instruction Code
CD	Compact Disc
CGI	Common Gate way interface
COBOL	Common Business Oriented Language.

ATM	Asynchronous Transfer Mode
CRT	Cathode Ray Tube
DOS	Disk Operating System
ENIAC	Electronic Numerical Integrator & Calculator
FIFO	First in First Out
FORTRAN	Formula Translation
GIF	Graphite interchange Format
IBM	International Business Machines
JPEG	Joint Photographic Experts Group
LAN	Local Area Network
LCD	Liquid Crystal Display
MICE	Magnetic Ink Character Reader
QR CODE	Quick Response Code
MODEM	Modulator and Demodulator
MP 3	Moving Picture Experts Group Layer 3
OCR	Optical Character Reader
OMR	Optical Mark Reader
PIN	Personal Identification number
SIM	Subscriber Identification Module
WAN	Wide Area Network
WI-FI	Wireless - Fidelity
UPS	Uninterruptible power supply
WAP	Wireless Application Protocol
ZIP	Zip Compressed File

Introduction To the Computer Applications

Applied Science and technology of existing undergoing uprising change due to growth and development of applied science and technologies or computer science, which are allowing existing researchers, engineers and practitioner to develop. The expeditious growth of computer based system, such as, simulation models or matlab, database and many more is proof of impact of computer and applied sciences existence. A large advance in existing . Technology and applied science has already results of the growth, application and associations of simulation models, database and many more. In today world we use computer for all our tasks our day - to day activities. Paying bill, buying groceries , using social media, seeking entertainment, working from home, communicating with a friend etc, can all be done using a computer. So it is important not only to know how to use a computer , but also to understand the components of a computer and what they do. The idea of computer literacy is also discussed, which includes the definition and functions of a computer you learn about the components of a computer the concept of hardware and software representation of data information, the concept of data processing and application of IECT.

Virus Alert

I Love You

Romantic as its sounds, the I Love You virus is not the kind of a gift you'd want to receive on valentines Day. The Virus used emails as a transmission channel, disguising itself as a love letter from one of its victims contacts. The malware was hidden in the attachment called "LOVE LETTER FOR YOU TXT. vbs" Clicking on it activated as visual basic script (a programming language which allows programmers to modify code) and the worm started overwriting random files on the user's PC. The worm also sent copies of itself to all contacts in the user's address book. This virus infected over ten million windows Pcs.

The Takeway :

be careful when opening strange attachments in a Love letter, even if it comes from your love interest.

Computer And Our Life

How Computer Changed our Life :-

Computer and its uses grew rapidly and widely through out the world. They are used to deal with many tasks due to their various potential. It helps to resolve problems human life encounters in daily life. Therefore they have more influence on our life the impact of computer usage on our life obviously identified as savings of money, time and effort within the last 3 decades computer

has been organized at the most life changing and successful invention solving problem in human life. Its difficult to survive a business without adopting computer usage either directly or indirectly in this modern world.

The subject "Computer and Human life" has become one of the most interesting subjects in school and colleges.

COMPUTER AND HUMAN LIFE CORRELATED WITH COMMUNICATION

Computer can bring people closer together and facilitate contacts b/w then using E-mail, chatting, Video Conferencing, Mobile phones and Social Media. It saves time, efforts and money compared with letters used before making influence of computers in human life. Using computers, we are able to create a documents, display it on screen, notify and print it on a printer or publish in front of the world through world web. computer connected with internet has ability to publish Ideas, thoughts, criticism etc, instantly across the world.

INFLUENCE OF COMPUTER IN EDUCATION

No doubt, Computer has made massive make over in education field. Three decades ago, if anyone has a doubt to be clarified in a learning process, finding right expert itself was a cumbersome task and there may not be available further opinion about the subject Although the different and more easiest classification or solution are available on the other side of the world, we were unable to know its whereabouts because lack of communication. In this modern world, Our "Guru" as well we know is "Google Search" being evolved as Human Assist adopting Artificial Intelligence (the latest trends in computer application)

The invention of tablet computer made smooth transition to student with computer from heavy bags carrying books and other learning accessories. Libraries have gone digital as well. so the people have access larger amount of information virtually anywhere.

A New Era in Education - MOOC

Most of the universities offer distant education and exams using online channels to their students in which many famous universities have made tie-ups with MOOC providers. MOOCs have become a paradigm in the heart of real knowledge seekers who get a new horizon to the world of learning with learners' convenience.

EDUCATION THROUGH MOOC

Some popular universities partnered with online education providers for example Coursera, Khan Academy are famous among them. More and more universities added day by day to Massive Open Online Course (MOOC) concept in education. It brings the learning process to the learner's convenience as well as unlimited participants.

COMPUTER BRINGS TREMENDOUS PROGRESS IN HEALTH CARE SECTOR

Computers provide potential for improving the effectiveness of medical care. It uses strong data of hospital such as patient data and medical information. Doctors and nurses can access this data easier which resulted in decreasing the process of time. In addition many operations are no longer manually performed rather computers are used to manage these tasks.

CONCLUSION TO "HOW HAVE COMPUTERS CHANGED OUR LIFE ;

To conclude, computers have changed our life beyond imagination and continue to play an important role on human life and behaviours. It provides effective learning, production control and utilization.

Vishal

21BCS026

Role of Communication

The exchange of information or Passing information from one person to another. The purpose of communication understand of information whatever one wants to say to someone should be clearly understood by him else the very purpose of the communication would be defeated. In any organization communication and understand between different people and departments through different media using all the channels of network. This flow of information is vital for managerial effectiveness and decision making in general and for human resource manage of various department, employes and workers and trade union leaders.

Purpose of Communication:-

Managements getting the things done through others. The people working in the organization should therefore be informed to them in the best possible manner.

The purpose of the communication can be summed up into the following.

The relevant information must flow continuously from top to bottom and vice Versa. The staff at all level must be kept informed about the organizational objectives.

Coordination :-

It is throught communication the efforts of all the staff working in the organization can be coordinated for the accomplishment of the organization goals.

Learning

The Communication facilities, flow of information, ideas, beliefs, perception, advice, orders both ways which enable the managers skills through experience of others.

Importance of Communication

effective communication is vital for efficient management and to improve industrial relations. In modern world the growth of telecommunication, information technology and the growing industrial relations. In modern world the growth of tele communication, information technology and the growing competition and complexity in production have increase importance of communication in organizations large and shall irrespective of their type and kind. This will make him perform well and enable him to give his hundred to the organization.

Artificial Intelligence

A step to the Next

In this era of science and technology, artificial intelligence or machine intelligence is nowadays influencing almost every aspect of our lives to help improve efficiency and enhance our human capabilities.

The branch of computer science where machines process the simulation of human intelligence and think like humans is known as artificial intelligence.

Artificial intelligence was born in 1950 by John MC carthy for the first time therefore John MC carthy is regarded as the father of artificial intelligence.

I has been created in such a way that it can think like humans, how the human mind first learns any problem then processes it, decides what is appropriate to do and finally how thinks about it while solving.

In the same type of AI, machines have also been given all the features of the human mind so that thay can work better. If you try a particular application of

AI, then it includes expert system, speech recognition and machine vision.

Type of Artificial Intelligence

There are mainly two types of artificial intelligence. They are

Type - 1

Narrow Artificial Intelligence

Can perform the single task example, voice recognition, Apple includes virtual personal assistants like siri and Amazon Alexa.

General Artificial Intelligence:-

Having an ability to perform tasks like human beings. To date, no such machine is developed.

Super Artificial Intelligence :-

AI with the capability to perform better than a human being itself. The research is still going on.

Type -2

Reactive Machine :-

This machine responds quickly to a situation. It is not able to store any data for present or future use. It works according to the fed data.

Limited Memory :-

This machine can store smaller amount of data for a limited period examples are self-driving cars and video games.

Theory of Mind :

These are the machines which would understand human emotions there would be much smarter. But these types of machines have not yet developed. There for the concept totally speculative.

Self Awareness :-

These types of machines attributes to a better working than that of human beings. To date no such machine has been developed. Efforts are continuously made in the same direction.

Artificial Intelligence : A Threat to Mankind

AI as one of the developing technology and is proving to be a boon. It may reduce get benefitted from his work by using smart technology. Since everything in this It may reduce the workloads. A person might get benefitted from his work by using smart technology. Since everything in this world has both positive and negative effects and so is artificial intelligence. If thus technology is used with a negative mind set, it would destroy mankind too. Artificial intelligence is going to benefit mankind only if citizen in a proper and positive way.

The Internet : A Great Invention

The Internet has changed the way we live. It started as something that we could access only through a computer but nowadays it is everywhere and I Love it.

one of the cool things about the www is that you can look for up anything you want and find out the answer straight away. Isn't that fantastic ? For example, imagine you are arguing with your friends about how to do something. Easy solution go online and find the answer.

However, the greatest thing about the Internet is how you can learn tons of things very cheaply or even free. In fact, through internet people can learn about different things : music, website design, making apps, history etc So I totally recommend it to everyone.

Internet has a lot of great things for me, best are finding information and learning online. What about you ? what are your favorite things about it ?

Friendship For Students

Friendship is one of the greatest bonds anyone can ever wish for. Luckily those who have friends they can trust. Friendship is a devoted relationship between two individuals. They both feel immense care and love for each other. Usually a friendship is shared by individuals, who have similar interest and feelings. You meet many along the way of life but only some stay with you forever. Those are your real friends stay by your side through thick and thin. Friendship is the most beautiful gift you can present to anyone. It is one which stays with a person forever.

TRUE FRIENDSHIP

A person is acquainted with many persons in his life. However, the closest ones become our friends. You may have a large friend cycle in school or college, but you know you can only count on one or two people with whom you share true friendship.

Friendship is important in life because it teaches us a great deal about life. We learn so many lessons from friendship which we won't find anywhere. Friendship never leaves us in bad times. You learn how to understand people and trust others. Your real friends will always motivate you and cheer for you. They will take you on the right path and save you from an evil. Moreover, friendship makes us stronger. It tests us and helps us grow. For instance, we see how we fight with our friends yet come back together after setting aside our differences. This is what makes us strong and teaches us patience. Therefore, there is no doubt that best friends help us in our difficulties and bad times of life. They always try to save us in our dangers as well as offer timely advice. Trustworthy friends are like the best assets of our life because they share our sorrow, our pain and make us feel happy.

Meena
20 CM 071

How to Overcome Challenges

It is the fact that challenges in life make us stronger undoubtedly. Living in the world is full of challenges, especially for those who are quite ambitious. Once you set a goal and start marching towards it you will initially find your way riddled with obstacles, hindrances, challenges, difficulties and setbacks. Even most of the people around are not only apathetic, but critical also. It appears as if the entire world is conspiring to make us a failure. However, this is not true. As the famous saying is life is 10% what happens to you and 90% how you react to it. As we set out on the adventurous journey of success. We will definitely come across obstacles. But if we get discouraged we would definitely fail, which would lead to poor self image. A man with low self image is not meant for stars, men or women who dare to chase their dreams naturally have a high self-esteem. The obstacles and hindrances rather fuel their zest for life.

They take people's criticism positively and learning from their mistakes keep marching towards their goal. All great men and women of the past have been men and women who did not allow people to determine their self image, they courageously faced challenges and obstacles Jesus had to face so many adversities before he rose to heaven Helan Kellier had to face challenges on every step she put forward she fought her darkness, hearing and speech disabilities and emerged as a better personality. Booker T Washington faced so many obstacles and rose from being a slave to one of the most successful educationist in the world ! Mahatma Gandhi, Nelson Mandela, Albert Einstein, all faced people's criticism and they never let it make them bitter. They made themselves better human beings and God blessed them with success in their fields.

Thanks

Harsh Soni

जिंदगी का सच

जो चाहा कभी पाया नहीं, जो पाया कभी सोचा नहीं जो सोचा कभी मिला नहीं, जो मिला वो रास आया नहीं जो खोया वो याद आता है, जो पाया वो संगमाला जाता नहीं, क्यों अजीब सी पहेली है जिंदगी, जिसे कोई सुलझा पाता नहीं, जीवन में कभी समझौता करना पड़ा, कोई बड़ी बात नहीं, क्योंकि झुकता वही है, जिसमें जान होती है अकड़ तो मुर्दे की पहचान होती है। जिंदगी जीने के दो तरीके होते हैं। पहला जो पसंद है उसे हासिल करना सीख लो, दूसरा जो हासिल है उसे पसंद करना सिखो जिंदगी जीना आसान नहीं होता, बिना संघर्ष कोई महान नहीं होता। जब तक न पड़े हथौड़े की चोट, पत्थर भी कभी भगवान नहीं होता। जिंदगी बहुत कुछ सिखाती है। कभी हंसती है तो कभी रूलाती है पर जो हर हाल में खुश रहते हैं। जिंदगी उनके आगे सिर झुकाती है। राज है यह जिंदगी का बस जीते चले जाओ बस जीते चले जाओ, जीते चले जाओ।

सीमा बेगम

Student Life

Student Life is that period of life which we spend in school and colleges. By spending our student life in the proper manner student life is a happy life. Student is the most important and golden period of development. Our primary duty is learning. We should prepare our daily lesson. Student life does not only about the study but it is the life of living the live. Student life is the most important journey that every student have. we should be honest and truthful. We should take regular exercise. A student should take care of his health. He should follow the rules of health. The Mind of the student is full of noble ideas, his eyes are full of dreams. He has to think of one thing only his studies, his preparation for the coming struggle of life. If properly utilized student life lays the foundation of future success and achievements

Importance of Time

Time is extremely important in our life. It helps us to organize and structure our daily activities. No one can escape the passing of time. We all are subjected to aging and mortality. Time plays an important role in our lives. One can gain experience and develop skill. Skills over time also help to heal things whether external wounds or feelings.. Time is the ultimate measure. Though time has no beginning and no end either. But we are able to measure it as years, month, days, hours, minutes and second. We also have words like past, present and future, All associated with time. Time flows, it keeps on moving. What was yesterday is not today. What is today will not be tomorrow. One has to strike the iron when it is hot. If you waste time, it will waste you.

एक सीख

गिरना भी अच्छा है
औकात का पता चलता है
बढ़ते हैं जब हाथ उठाने को.....
अपनों का पता चलता है।
जिन्हें गुस्सा आता है
वो लोग सच्चे होते हैं
मैंने झूठों को अकसर
मुस्कुराते हुए देखा है
सीख रही हूँ अब मैं भी इंसानों को पढ़ने का हुनर
सुना है चेहरे पे किताबों से ज्यादा लिखा होता है"

RESERVATION IN INDIA

(According To The Constitution)

Reservation is a crucial and highly debatable topic in India. Furthermore, the main aim behind the reservation was the embowerment of the weaker sections of society

Background of the Reservation Policy:-

Reservation in India refers to the practice of reserving a certain percentage of seats in government institutions for people belonging to backward and under represented communities. The primary beneficiaries of the reservation policies under the constitution are the scheduled castes (Scs), Scheduled Tribes (STs) and other Backward classes (OBCs). Furthermore, the concept was made part of the constitution in order to let the deprived classes come at par with the privileged classes.

Initially, the idea was to make a reservation policy only for ten years after the Independence to facilitate the development of the underprivileged sections. However, the situation now is such that even after more than seventy years of independence, reservation policy is still in place.

Problems Associated With Reservation Policy

One can attribute the origin of the reservation system to the age-old caste system of India. Soon, however, the system became an instrument of dividing the society on the basis of caste. Furthermore, this led to the creation of various walls between the different sections of society. Now its very important to discuss this, so, one side Article 15 of Part -3 Fundamental rights :- States that state shall not discriminate on the ground of religion, race, caste, gender or place of birth. On the other hand, Article 46 of part-4 States about the special provisions to the SC/ST/ Weaker Sections of the society. So there is conflict between Article 15 and Article 46

case CHAMPAKAM DORAIRAJAN VS UNION OF INDIA 1951. Article 15 and Article 46 Conflict . But the supreme court clearly states that if there is conflict between Part 3 and Part 4 of the constitution then always priority is given to the part 3 (Article 15) But our 'Father of Constitution' Dr. B.R. Ambedkar said that we have to give "Level Playing Field" (Reservation) to the Backward classes. But that time constitution not allow this so for this First Constitution Amendment, 1951, Article 15 (4) states reservation to SC/ST and Backward classes. Dr. B.R. Ambedkar clarify in the Article 335 that You shall not give reservation at the cost of the efficiency of administration. But about this no one even discussed. So the conclusion from the discussion is that we are the people of India and we have the Right to equity each and every person of India is equal in the eyes of Constitution. If we left backward on the ground of we can raise question, this is our right. Raise voice to take your/our rights, if we don't raise our voice then the Aim of our founding father of the constitution Dr. B.R. Ambedkar the 'Level Playing Field' to the backward classes

The use of Internet

Internet stands for international network. It connects the people all over the world. Today's world life can not be imagined without internet. Internet has made our life easier and quicker and it also do various impossible lacks while sitting at home. Internet provide a platform where people can learn, shop, pay bills, buy movie ticket and can do many more things. One can easily take lessons on the subjects which ever they are interested in, irrespective of age and it is provided free of cost. Anyone can get information regarding anything on Google. Now it is possible to do shopping while sitting at home and there are variety of products available online. Social networking has helped to connect to people in different parts of the world. Now it is possible to do video conferencing and has made communication easier. Internet has made this big world a small unit. Where we can get information about anything, anywhere. The internet has some dark sides too. The over use of the internet has provided us huge range of advantages.

What Student Think About College life Before College

Sahil Dogra

To go and enjoy college life is the dream of every students. Since their schooling they saw their elder brother or sister going to the college life thinking about the pleasures, the cool environment of the college, the relaxation given to the student there and a lot of things they start comparing their school life with their upcoming college life and think about those restrictions which they have to bear in the school life but not in the college like no P.T.M. no restriction for any kind of dresses, you can make any hairstyle, no pressure from the teachers to make their copies as to do any homework or even to attend the lecture its all up to the student whatever he/she want to do they are free to do that and they start counting how many years or months are left for them to be a part of college and enjoy that life style . As college gives a lot of things to student other than studies like there are no of programs and they can take part in extra-curricular activities and also in studies, students need not have to study different-different subjects of all kinds in which they are not interested but they have to study them in school but the college offers the student to take the degree in the specific field in which they see their future. College life is very important for every student as it brings confidence in the student college make the things transparent for the students which are earlier opaque for them and gives them clean and deep knowledge about their

future as compared to school they give the student to choose their different streams but the college let the student know in exactly which field and which direction they are moving.

SOCIAL MEDIA

Social Media is one of the most fast growing platform in this era. We are able to communicate with other people very easily by social media. We are also able to know the news in other parts of the world much easily by using social media. We can see the variety of opinions which arises by discussing and debating on a particular subject or incident. Some small people whose voice was not heard before are able to voice their opinions through social media. They are able to bring out the truths to the public. We are also able to share videos pictures etc with just one click through social media. They are able to bring out the truths to the public. We are able to build better relationships with our friends. Thus we can say social media is very helpful for an individual in many ways. Social media also has harmful effects if not used wisely or judiciously. Some people get addicted to social media like instageram, face book, whatsapp etc. This leads to a decrease in their productivity in real life people are doing less exercise these days and engrossed in social media. It makes the unhealthy. and Increase eye problems.

Thus social media has both negative and positive effect on the life of an Individual.

Thanku you

COVID -19 : THE PANDEMIC

In last few years, we have heard a lot about viruses and especially SARS COV 2 or the Corona virus which causes the disease COVID-19. Corona virus spreads through droplets released by sneezing or coughing and so called droplet infection. When a person coughs or sneezes, small droplets are released in the atmosphere, which remain suspended in air for some time and after that settle down on a surface. If a healthy person inhales these droplets or after touching contaminated surface, he/she touches his/her eyes, nose or mouth, the virus enters the body. This virus infects epithelial cells of lungs which form the inner surface of the lungs. In response to this infection, immune system responds and clears the infection. In severe cases, corona virus starts to infect our own immune cells and makes them trigger a massive release of cytokines (messenger protein, with the help of which immune cells communicate to each other), which causes immune system to overreact and immune system starts damaging epithelial cells of lungs which results in pneumonia (filling of lungs with fluid) and causes severe cases. Expert treatment and following the guidelines from competent authorities can stop the spread of this pandemic.

Environmental Science And Pollution Research

Environmental science is defined as the branch of biology focused on the study of the relationships of the natural world and the relationships between organisms and their environments. Man is causing all around damage to atmosphere, water etc. to the various elements of environment and to the ecosystem itself. Our atmosphere on the globe as well as regional scale is heavily polluted.

Environmental Science and Pollution Research (ESPR) serves the international community in all areas of environmental science and related subjects with the emphasis on chemical compounds. It reports from a broad interdisciplinary outlook. Environmental Science and Pollution Research (ESPR) represents the international perspective with

regulation and the economy on pollution control. ESPR articles are generally chemically oriented but cover all the broad areas within environmental science.

Information from ESPR should also be useful for planning lectures and university environmental curricula. A global network of editorial board members represents a variety of disciplines and groups of interest. The editorial board safeguards the international and the interdisciplinary character of the journal and ensures appropriate referring procedures.

Euthanasia

Like other philosophical doctrines, the word euthanasia is derived from two greek words, 'Eu' meaning well and thanatos meaning death. In simple terms, it means good death or ending one's life to relieve from pain.

If we dig a little deeper in Hindu scriptures, then we will find that story of "Mahabharata" tells us that Bheeshma had a boon of desired death. When he no longer be able to bear sufferings and afflictions of life, he choose to die. Hence we can connect dots of present day euthanasia with desired death of Bheeshma.

Euthanasia exists in two forms : Active and Passive. In active euthanasia, lethal dose of drug is given to patient, who is in vegetative state of suffering from incapacitating physical disorder. While in passive euthanasia, patient is allowed to die by withholding artificial life support such as ventilators. It was first legalised in Netherlands. In many countries like Belgium, Canada & Australia, it is legal In India, active euthanasia is completely illegal, while in 2018 Hon'ble Supreme Court of India in landmark judgement of "Common cause vs. "Union of India" allowed passive euthanasia with concept of advanced directive and strict guidelines along with supervision of Hon'ble Hight Court's to keep a check on its misuse Though many religious views like Islam, Judaism & Christianity, strongly criticize euthanasia. It still remains a big question & topic of debate for law, bioethics and humanity.

Necessity is Mother of Invention

1. The 'necessity is mother of invention' is a relevant idiom.
2. It means that needs of human beings gives rise to new inventions.
3. Inventions are solutions to our problems.
4. It makes our lives easy & comfortable.
5. Desires are necessary to achieve goals.
6. We never eat food unless we are hungry.
7. Similarly new inventions can never happen without necessity.
8. Hardwork and sincerity help us in meeting our needs.
9. Curiosity and creativity of human mind leads to new inventions.
10. Inventions will keep happening until our needs do not come to an end.

Health

- H- Healthy
- E - Eating and
- A - Active
- L - Lifestyles
- T - Taught
- H - Hear

Health is not only means of healthy lifestyle but also active lifestyles.

It means we should take healthy diet which contains all nutrients like carbohydrates, fats, vitamins, minerals which means we have to take the balanced diet and should use active lifestyle. Health is a complete state of physical, mental, social and emotional well being. Even if one thing is lost here, then we are not healthy person. Make your environment healthy and improve the habits regarding health because health is wealth. Healthy life is happy life.

Another World

Solar System has eight planets and earth on which we live is also one of them. Mars comes after the earth. It is believed that after earth, mars is the only planet to have oxygen in its atmosphere(0.13%). There is possibility of having 1 million people living on mars within the 100 years .

All space agencies are working towards reaching mars. There are quite a number of missions both manned and unmanned, which are currently planned from space light companies across the world.

Indian Mangalyaan mission is aimed at studying Martian atmosphere. Its objective is to explore martian surface features , morphology, mineralogy and atmosphere.

ISRO is working towards their second mangalyaan mission. The scientific reason for going to mars can be summarised by search for life, understanding planet's evolution and preparing for further exploration.

Understanding whether life existed elsewhere in universe beyond earth is a fundamental question for humankind.

Plastic Road

Plastic road, first developed by Rajagopalan Vasudevan in 2001, consist of an asphalt mix with plastic waste "incorporated into the asphalt mixture. He developed an innovative method to reuse plastic waste to construct better, more durable and cost- effective roads. This method will help in making roads much faster and also will save the environment from dangerous plastic waste. The roads also show greater resistance to damages caused by heavy rains. For making plastic roads, in every kilo of stone, 50gm of bitumen is used and 1/10th of this is plastic waste. This reduces the amount of bitumen being used. It involves

- a) Collecting waste plastics including carry bags, cups, soft and hard foams and laminated plastics
- b) Cleaning it by washing.
- c) Shredding it to a uniform size.
- d) Melting the waste plastics at 165 degree Celsius and blending it with hot aggregates and bitumen and using this mix to lay the road.

Science "Boon or Bane"

"Science" easiest and most complicated thing to get into from complexity of our diseases to their cure, science plays vital role in existence as well as destruction of this planet.

Talking about ancient times Gupta period witness a brilliant activity in sphere of mathematic, astronomy and medicine. VAGBHATA was last great medical trio of ancient India. Other two were Charak and Aryabhatta was first who talked about science Sushrut before gupta age.

Galileo Galilei was a part of small group of astronomers who turned telescope towards heaven. He constructed after hearing about "Danish Perspective glass." Albert Eienstein, Sir Issac Newton, Aristotle, were scientists who took science to another level. Humans have caused various unwanted disasters due to science. In 1986, nuclear reactor disaster occurred at Chernobyl in Ukraine. Due to this disaster soil became reddish brown & rivers got contaminated & mental health of people also got affected.

Terrorism is not new to social world. Now -a- days it is growing into more aggressive form. Science is technology due to which survival in this modern world may or may not be possible. So it depends on us that what we want to be known for and hence we should prepare ourselves for consequences.

Ashish Kumar
B.Sc. III

Power of Compounding

Our Society often keeps us reminding about working hard to earn money and thats a good thing too. But sadly, there are hardly any people who talk about making our money work for us. Compounding is the way which can make our

money works for us. But how ? Suppose you invest Rs. 50000/- at an annual rate of 10% for 10 years. Now after one year, it will become Rs. 55000/- (with Rs. 5000/- interest) and from here the magic of compounding starts. In 2nd year, the 10% interest will be applied on principal amount along with 1st year's annual interest also. So, therefore, this year's interest will be Rs. 5500/- not Rs. 5000/-. Similarity, in third year, the total interest will be calculated on principal amount along with the total interest of previous two years.

In this way, after two years, the total amount will become Rs. 1,30,000/- and this amount will become Rs. 8,72,000/- if remain invested for next 20 years. This is the power of compounding which can make your Rs. 50000/- into Rs. 8,72,000/- in 30 years. Now, Why ? Why to invest ? Simple answer is to create wealth for future. So that one can live a happy life with adequate resources even after job retirement. And also, if you don't invest your money, the value of your saved amount will automatically decrease as inflation is there.

But there are some things to keep in mind about compounding. Compounding can only benefit you if you invest for a long period of time. So you should start investing as early as you can.

And this needs a high discipline and patience to make that money.

And the most important thing is that one should invest his money in a wise and safe manner by using his own mind, and not on the basis of other people's suggestions. Because it takes a life long to earn some money and it will not take ever a single day to burn it. Greedy and blind investments can be very dangerous. Asset diversification and proper risk management should be there. So, keep safety investing and enjoy the compounding.

Xenotransplantation

Xenotransplantation is the technique that involves the transplantation, implantation into a human recipient of either live cells, tissues or organs from a non human animal source or human body fluids, cells, tissues or organs that had ex vivo contact with live non human animal cells, tissues or organs.

Recently, surgeons in New York city successfully attached a pig kidney to a human patient and watched the pinkish organ function normally for 54 hours. This is the first time that a pig kidney has been transplanted to a human body and has not been immediately rejected. The procedure marks progress towards the goal of drastically expanding the supply of life saving organs. Millions of people around the world are waiting for donated organs, many of which never come. So, scientists have long sought to solve this shortage by using animal organs. Pigs have emerged as the primary focus of this research, since their organs are anatomically similar to human organs and the animals can be bred in a highly controlled manner.

So, 'xenotransplantation' is a potentially life saving option for people with such ailments as severe heart disease and kidney failure.

What is a Spacecraft

Spacecrafts are huge machines that are used to travel in space. There are different types of spacecrafts, each designed in a different way for different purpose. It is a very risky job to travel in space as we don't have enough information about the climate, pressure and gravity on other planets and objects in space. So, we don't know how our body react in unknown conditions. Hence, scientists cannot always send an astronaut in space.

Sometimes small, robotic spacecrafts are sent to explore planets, moons, comets, and asteroids in our solar system. These machines are sent without astronauts and are called space probes. There are many types of space probes such as orbiters, landers and rovers.

So, what do we call a spacecraft that takes astronauts into the space ? It is called a space shuttle. A space shuttle lands on a planet. It does not carry astronauts but also space probes that can be left in the space shuttle comes back to earth.

Injection And Immunity

The development of human civilization is a history of struggling with disease. In the past, people have suffered a lot of epidemic of infectious diseases such as cholera and smallpox. Recently it is corona virus. For a long time, people were helpless and had no useful tools to counteract these diseases. It is not until recent several hundred years that the human being gradually seized the initiative in this battle. People gradually find out the prime culprit of infection and learn to know about infectious disease. More importantly the utilization of vaccine is a fundamental sign of humans counterattack to infectious diseases. As a host protection mechanism, the immune system can discriminate non-self components and then initiate innate (non-specific) and adaptive (specific) immune response to eliminate the non self components

वार्षिक प्रतिवेदन 2021-2022

महाराणा प्रताप राजकीय महाविद्यालय अम्ब

आदरणीय मुख्यातिथि, श्री यशवीर सिंह जी माननीय विधायक चित्तपूर्ण विधानसभा क्षेत्र, वार्षिक पुरस्कार वितरण समारोह के अवसर पर इस महाविद्यालय के समस्त परिवार की ओर से इस संस्थान के पवित्र परिसर में आपका स्वागत करना मेरे लिए अत्यंत सौभाग्य की बात है।

महोदय, मैं आपका आभारी हूँ कि आज आपने हमारे महाविद्यालय के मेधावी विद्यार्थियों को उनकी वार्षिक उपलब्धियों के लिए सम्मानित करने हेतु अपने व्यस्त कार्यक्रम से अपना बहुमूल्य समय निकालकर इस समारोह की शोभा बढ़ाई। माननीय, आप की गौरवमयी उपस्थिति हम सब के लिए सौभाग्य एवं प्रेरणा का अगाध स्रोत है। वार्षिक पारितोषिक वितरण समारोह एक ऐसा अद्भुत और विरल शुभ अवसर होता है जहाँ अध्यापक वृंद, छात्र-गण तथा अन्य सहयोगी कर्मचारी संशुभ अपने योगदान को रेखांकित करते हैं। यह ऐसा अवसर भी होता है जब हम शिक्षा के क्षेत्र में अर्जित अपनी श्रेष्ठता तथा उपलब्धियों का आकलन करने में भी सक्षम होते हैं। ज्ञान की सम्पूर्ण विवक्षा का संपूर्ण संप्रेषण आज के दिन ही हो पाता है। मुझे पूर्ण विश्वास है कि आज के मुख्यातिथि की उपस्थिति हमारे छात्रों और अध्यापकों को इस तथ्य के लिए प्रेरित करेगी कि उनकी जो भी अंतर्निहित क्षमताएँ और मेधाएँ हैं, उनके स्फुरन का आभास और अवसर उन्हें उत्कर्ष के नए-नए शिखरों को स्पर्श करने की ऊर्जा देगा और संभावनाओं के नए-नए द्वार खोलेगा।

मान्यवर, आपके संरक्षण एवम् सही दिशा निर्देश में मुझे विश्वास है कि यह शिक्षण संस्थान प्रत्येक प्रकार से प्रफुल्लित होता हुआ चहुँमुखी विकास करेगा। आपकी सद्भावना और सौहार्द से भरपूर शुभ इच्छाएँ इस संस्थान को निश्चय ही इसके भाग्य को विशिष्ट आकार देंगी। महोदय, मुझे यह घोषणा करते हुए अति प्रसन्नता हो रही है कि आप इस महाविद्यालय के पूर्व छात्र रहे हैं। एक मेधावी छात्र और एक बहुत ही लोकप्रिय राजनैतिक व्यक्तित्व होने के बावजूद, आपकी सादगी और जमीन से जुड़ा स्वभाव, हर किसी को प्रभावित करता है। आप हमेशा इस महाविद्यालय के लिए मार्गदर्शक और समर्थक रहे हैं। आज हम सभी आपकी उपस्थिति से गौरवान्वित महसूस कर रहे हैं।

मैं अभिभावक शिक्षक संघ (पीटीए), ओल्ड स्टूडेंट एसोसिएशन (ओएसए) के पदाधिकारियों, विशिष्ट अतिथियों, अभिभावकों, प्रिंट और इलेक्ट्रॉनिक मीडिया के संवाददाताओं, कर्मचारियों, छात्रों का भी हार्दिक अभिनंदन करता हूँ। यह मेरा परम सौभाग्य है कि आज मुझे आपके समक्ष 2021-2022 सत्र की महाविद्यालय की अनेक गतिविधियों का प्रगति विवरण और प्रतिवेदन प्रस्तुत करने का शुभ अवसर मिला रहा है।

यह महाविद्यालय 1970 में स्वर्गीय श्री हंसराज अकरोट जी द्वारा National College Amb के रूप में शुरू किया गया। 1997 में सरकार ने कला और विज्ञान संकाय में लगभग 400 विद्यार्थियों के साथ महाराणा प्रताप राजकीय महाविद्यालय के रूप में इस महाविद्यालय का अधिग्रहण किया। वर्तमान समय में, यह महाविद्यालय 2.4 सीजीपीए के साथ

नैक मान्यता प्राप्त है। इस महाविद्यालय की वर्तमान स्थिति समस्त कर्मचारियों, विद्यार्थियों के निरंतर प्रयासों, क्षेत्र के लोगों व सरकार के नियमित समर्थन का परिणाम है। वर्तमान में, इस महाविद्यालय में स्नातक में कला, विज्ञान व वाणिज्य; और स्नातकोत्तर में अंग्रेजी व वाणिज्य विभाग की कक्षाएं सुचारू रूप से चल रही हैं। हमारे पास स्व-वित्त योजना के तहत भी बीसीए, बीबीए और पीजीडीसीए कोर्स हैं। इसके अलावा राज्य सरकार ने कौशल विकास कार्यक्रम के तहत मर्चेंडाइजर/सॉफ्ट-स्किल नाम से एक नया ऐड-ऑन कोर्स शुरू किया है जिसमें विद्यार्थियों को संबंधित पाठ्यक्रम का बुनियादी ज्ञान प्रदान किया जा रहा है। यह कोर्स बिल्कुल निशुल्क है। हिमाचल प्रदेश में, यह कोर्स एचपी कौशल विकास निगम (एचपीकेवीएन) द्वारा संचालित होता है। हिमाचल प्रदेश सरकार द्वारा 2021-2022 के लिए उत्कृष्ट महाविद्यालय योजना के अंतर्गत चयनित 18 महाविद्यालयों में इस महाविद्यालय को भी शामिल किया गया है। यह हमारे लिए एक गौरव का विषय है। इसके लिए हिमाचल प्रदेश सरकार ने एक करोड़ बजट को मंजूरी दी है। इस योजना के तहत निम्नलिखित बुनियादी ढांचे का निर्माण किया जाएगा।

1. लघु परियोजना के लिए अनुसंधान केंद्र।
2. मजबूत आधुनिक प्लेसमेंट सेल।
3. खेल और संस्कृति का बुनियादी ढांचा।
4. कार्यालय और पुस्तकालय का सुदृढ़ीकरण।
5. सम्मेलन और तर्जुमाल कक्षा।

1. कर्मचारी

2021-2022 वार्षिक I= के दौरान, राजकीय महाविद्यालय ने निम्नलिखित आगमन और प्रस्थान देखे हैं।

आगमन

1. श्रीमती वंदना कौंडल, सहायक प्राध्यापक अंग्रेजी विभाग।
2. श्री सुख देव, सहायक प्राध्यापक अंग्रेजी विभाग।
3. डॉ. पवन पटियाल, सहायक प्राध्यापक शारीरिक शिक्षा।
4. डॉ. निधि शर्मा, सहायक प्राध्यापक वनस्पति विज्ञान।
5. श्री अजय कुमार, सहायक प्राध्यापक गणित।

3. राष्ट्रीय कैडेट कोर

एनसीसी का उद्देश्य चरित्र, अनुशासन, धर्मनिरपेक्ष दृष्टिकोण, साहस की भावना, खेल भावना का विकास करना और युवाओं में देशभक्ति की भावना पैदा करना है ताकि उन्हें उपयोगी नागरिक बनाया जा सके। महाविद्यालय में एनसीसी की एक हकाई कार्यवाहक (MCC officer) प्रो. अनिल वर्मा के अधीन कार्यरत है। शैक्षणिक सत्र 2021-2022 में एनसीसी की उपसक्रिया निम्नलिखित हैं:-

1. इंडस इंटरनेशनल यूनिवर्सिटी बापू में 6-12 अक्टूबर 2021 तक 'बी' और 'सी' सर्टिफिकेट के लिए आयोजित वार्षिक प्रशिक्षण शिविर में 03 कैडेटों ने भाग लिया।
 - (i) श्रीमती मनु बाबा ने सीनियर विंग में 4 किमी की दौड़ में प्रथम स्थान प्राप्त किया।
 - (ii) श्री केशव ठाकुर ने सीनियर विंग में 4 किमी की दौड़ में दूसरा स्थान हासिल किया।
 - (iii) Sergeant अनुपमा ने नितानेवाजी में दूसरा स्थान हासिल किया।
2. कर्नल एमएन वानखेड़े द्वारा 14 सितंबर 2021 को आयोजित साक्षात्कार में 20 कैडेटों का चयन किया गया।
3. Sergeant अनुपमा, कैडेट शिव दत्त और एलसीपीएल मंदीप नारवाल ने 15 सितंबर से 22 सितंबर 2021 तक प्री-आरडीसी प्रशिक्षण शिविर में भाग लिया।

4. 07 दिवसीय ग्री-आरडीसी कैप में 23-30 सितंबर 2021 तक सार्जेंट अनुपमा और कैप्टेन शिव दत्त ने भाग लिया।

5. वार्षिक एनसीसी दिवस 28 नवंबर 2021 को मनाया गया।

6. 03 कैप्टेन एलसीपीएल अलीशा परमार, सार्जेंट अनुपमा और कैप्टेन साहित ने 13 से 25 दिसंबर 2021 तक मोहाली में आयोजित प्रशिक्षण शिविर में भाग लिया।

4. राष्ट्रीय सेवा योजना इकाई

विद्यार्थियों के बीच श्रमदान और निस्वार्थ सेवा की भावना पैदा करने के लिए, प्रो. प्रीति और डॉ. रजनीश कुमार की देखरेख में कॉलेज में दो एनएसएस इकाइयां उत्साहपूर्वक कार्य कर रही हैं। महाविद्यालय में हुई विभिन्न गतिविधियों का व्यौरा इस प्रकार है:

1. 7 दिवसीय विशेष शिविर का आयोजन दिनांक 20.12.2021 से लेकर 26.12.2021 तक किया गया।

2. सत्र 2021-22 के दौरान 05 एक दिवसीय शिविरों का आयोजन किया गया।

3. शिक्षक दिवस, एनएसएस दिवस, विश्व एड्स दिवस, संविधान दिवस पर ऑनलाइन/ऑफलाइन प्रतियोगिताओं का आयोजन किया गया।

5. रोवर्स और रेंजर्स

भारत स्काउट्स एंड गाइड्स के मार्गदर्शन में राजकीय महाविद्यालय अम्ब में पहली बार रोवर्स एंड रेंजर्स की यूनिट शुरू की गई है। प्रो. सुरेता और प्रो. लखवीर सिंह इस इकाई के प्रभारी हैं।

6. सड़क सुरक्षा क्लब

रोड सेफ्टी क्लब, नोडल अधिकारी प्रो. सुख देव के नेतृत्व में कार्यरत है। इस क्लब की उपलब्धियां इस प्रकार हैं:-

1. पोस्टर प्रतियोगिता और नारा लेखन प्रतियोगिताएं 24 फरवरी 2022 को आयोजित करवायी।

2. 2 मार्च 2022 को सड़क सुरक्षा नियमों पर जागरूकता रैली का आयोजन किया गया।

3. सड़क सुरक्षा के संबंध में एक भाषण प्रतियोगिता 3 मार्च 2022 को आयोजित की गई।

4. 8 मार्च 2022 को निबंध-लेखन प्रतियोगिता आयोजित की गई।

7. निर्वाचन साक्षरता क्लब (Electoral Literacy club)

नोडल अधिकारी प्रो. सुख देव के नेतृत्व में चुनावी साक्षरता क्लब चलाया जा रहा है। इस क्लब की उपलब्धियां इस प्रकार हैं:-

1. 17 नवंबर 2021 को एक भाषण प्रतियोगिता आयोजित की गई ।
2. मतदाता पहचान पत्र के पंजीकरण के संबंध में एक शिविर 23 नवंबर 2021 को आयोजित किया गया।
3. 27 नवंबर से 9 दिसंबर 2021 तक मतदाता पहचान पत्र के पंजीकरण के संबंध में एक शिविर फिर से आयोजित किया गया।

8. खेल -उपलब्धियां

1. एम.एल.एस.एम.महाविद्यालय में आयोजित हिमाचल प्रदेश अंतर महाविद्यालय कुश्ती प्रतियोगिता में बीए प्रथम वर्ष के छात्र अभिषेक रायजादा ने कांस्य पदक जीता।
2. बीसीए तृतीय सत्र के छात्र भरत ने राजकीय महाविद्यालय इंदौरा में आयोजित अंतर महाविद्यालय भारोत्तोलन प्रतियोगिता में कांस्य पदक जीता।
3. एम.कॉम के छात्र विशाल डडवाल ने राजकीय महाविद्यालय इंदौरा में आयोजित अंतर महाविद्यालय भारोत्तोलन प्रतियोगिता में कांस्य पदक जीता।
4. मैंगलोर विश्वविद्यालय में होने वाली ऑल इंडिया इंटर यूनिवर्सिटी क्रॉस कंट्री चैम्पियनशिप में बीए द्वितीय वर्ष की छात्रा स्वाति ठाकुर को एचपीयू क्रॉस कंट्री टीम का प्रतिनिधित्व करने के लिए चुना गया है।
5. सत्र 2021-2022 के लिए वार्षिक खेलकूद प्रतियोगिता का आयोजन 25 व 26 फरवरी 2022 को किया गया। इस अवसर पर डॉ वी.के. दत्ता (सेवानिवृत्त प्राचार्य) मुख्य अतिथि रहे। बीए द्वितीय वर्ष की स्वाति ठाकुर को महिला वर्ग में और बीएससी तृतीय वर्ष के रविंदर सिंह को पुरुष वर्ग में "सर्वश्रेष्ठ खिलाड़ी" घोषित किया गया।

9. छात्रवृत्तियां

हर साल मेधावी, जरूरतमंद और योग्य छात्रों को वित्तीय सहायता प्रदान की जाती है। शैक्षणिक सत्र 2021-2022 के दौरान विभिन्न प्रकार की छात्रवृत्तियां प्रदान की गई हैं :

S.No.	Types of Scholarship	No. of Students
1	CENTRAL SECTOR SCHEME OF SCHOLARSHIP FOR COLLEGE AND UNIVERSITY STUDENTS	16
2	CENTRALLY SPONSORED POST MATRIC SCHOLARSHIP SCHEME FOR SC STUDENTS- HIMACHAL PRADESH	65

8	INDIRA GANDHI UTKRISHT CHATRAVRITI YOJANA-HP	4
TOTAL		208

10. सह-पाठ्यचर्या गतिविधियां

सह-पाठ्यचर्या संबंधी गतिविधियाँ औपचारिक शिक्षा का एक अनिवार्य हिस्सा हैं। यह व्यक्तित्व को संवारने और समग्र विकास में मदद करता है। हमारा महाविद्यालय समस्त विद्यार्थियों को महाविद्यालय में और उसके बाहर ऐसे अवसर प्रदान कर रहा है।

1. महाविद्यालय में हिंदी-विभाग की ओर से राष्ट्रभाषा हिंदी के प्रचार प्रसार हेतु 14 सितम्बर 2021 को हिंदी दिवस सफलतापूर्वक मनाया गया जिसके अंतर्गत वाद- विवाद और दोहा वाचन आदि प्रतियोगिताओं का आयोजन किया गया जिन में विद्यार्थियों ने बड़ चढ़कर अपनी प्रतिभा दिखाई और राष्ट्रभाषा हिंदी के प्रति अपनी प्रतिबद्धता और समर्पण भाव को अभिव्यक्त किया।

2. 30 अक्टूबर 2021 को 'नशा मुक्त भारत' पर निबंध-लेखन प्रतियोगिता का आयोजन किया गया।

3. 20 नवंबर 2021 को 'देशभक्ति और राष्ट्र निर्माण' पर एक भाषण प्रतियोगिता आयोजित की गई।

4. 29 सितंबर 2021 को महाविद्यालय में युवा विकास केंद्र कांगड़ा के साथ संयुक्त रूप से विज्ञान मेला आयोजित किया गया और विज्ञान प्रश्नोत्तरी, विज्ञान मॉडल की प्रदर्शनी, विज्ञान विषयों पर आधारित चित्रकला और वाद-विवाद प्रतियोगिता जैसी विभिन्न प्रतियोगिताएं आयोजित की गईं।

5. विज्ञान दिवस 28 फरवरी 2022 को मनाया गया।

11. प्राध्यापकों की उपलब्धियां

अध्यापन के अलावा, महाविद्यालय के विभिन्न संकाय से जुड़े सदस्य अपने शोध कार्य व संगोष्ठियों और सम्मेलन में भाग लेने के साथ बहुत सक्रिय रहे हैं।

उनके कार्यों/उपलब्धियों के कुछ मुख्य अंश इस प्रकार हैं:

1. प्रो. रेखा शर्मा ने शिक्षण-अधिगम प्रक्रिया के लिए ICT tool's पर दो सप्ताह के ऑनलाइन संकाय विकास कार्यक्रम और इलेक्ट्रॉनिक्स और आईसीटी संस्थान में 15 से 26

मार्च 2021 तक भाग लिया। दो सप्ताह के इंटर डिस्टिन्क्शनरी रिफ्रेशर कोर्स में भी उन्होंने भाग लिया।

2. डॉ. श्रुति, सहायक प्राध्यापक जीव विज्ञान, डॉ. बिंदिया चंदेल, सहायक प्राध्यापक राजनीतिक शास्त्र, प्रो. सुरेता, भौतिकी विज्ञान ने रामानुजन कॉलेज दिल्ली द्वारा संचालित चार सप्ताह का इंडक्शन-कम-ओरिएंटेशन कोर्स 19 जुलाई 2021 से 17 अगस्त 2021 तक पूरा किया।

3. डॉ. गोदावरी, सहायक प्राध्यापक रसायन विज्ञान ने 05.07.2021 से 19.07.2021 तक दो सप्ताह के ऑनलाइन रिफ्रेशर कोर्स में भाग लिया, जिसका आयोजन रामानुजन कॉलेज, दिल्ली द्वारा किया गया था।

4. डॉ. कुमारी सुजाता, सहायक प्राध्यापक हिंदी विभाग ने सनबीम विमेंस कॉलेज द्वारा आयोजित फैकल्टी डेवलपमेंट प्रोग्राम में 14 से 24 जुलाई 2021 तक भाग लिया।

5. प्रो. सुख देव, अंग्रेजी विभाग के 'पर्यावरण शिक्षा के लिए जैव-विविधता संरक्षण' पर एक शोध पत्र को 24 नवंबर 2021 को 'स्कोप डेटाबेस' में अनुक्रमित किया गया है।

6. डॉ. रजनीश कुमार, सहायक प्राध्यापक भौतिकी विज्ञान ने राजकीय महाविद्यालय नाहन में "शिक्षा नीति" पर आधारित सम्मेलन में भाग लिया।

12. विविध उपलब्धियां

हमारे महाविद्यालय के छात्रों ने अन्य क्षेत्रों में भी उत्कृष्ट प्रदर्शन किया है। इनकी उपलब्धियां इस प्रकार हैं:-

1. वाणिज्य संकाय से आरुषि अंतिम वर्ष की छात्रा ने हिमाचल प्रदेश विश्व विद्यालय में 8वां स्थान प्राप्त किया।

2. विज्ञान संकाय की छात्रा ने नेहरू युवा केंद्र द्वारा ऊना में आयोजित जिला स्तरीय प्रतियोगिता में प्रथम स्थान प्राप्त किया और इस उपलब्धि के लिए उन्हें नेहरू युवा केंद्र की तरफ से 5000/- रुपये का नकद पुरस्कार देकर सम्मानित किया गया।

13. Career Guidance Placement Cell (कैरियर परामर्श प्रकोष्ठ)

महाविद्यालय में एक कैरियर परामर्श प्रकोष्ठ कार्यरत है और प्रो. दर्शन धीमान इस प्रकोष्ठ के समन्वयक हैं। वर्तमान सत्र के दौरान प्रकोष्ठ की उपलब्धियां इस प्रकार हैं:-

1. 17 नवंबर 2021 को स्नातक प्रथम वर्ष के छात्रों के लिए एक करियर परामर्श शिविर का आयोजन किया जिसमें लगभग 100 छात्रों ने भाग लिया। एचसीएल कंपनी के प्रतिनिधियों ने एचसीएल टेकवीई कार्यक्रम के त्वारे में छात्रों का मार्गदर्शन किया। महाविद्यालय के 05 छात्रों को कंपस इंटरव्यू के जरिए कंपनी में चयनित किया गया।

2. बीएससी, बीबीए और बीसीए तृतीय वर्ष के छात्रों के लिए 6 दिसंबर 2021 को कैरियर जागरूकता शिविर का आयोजन किया गया। छात्रों को स्नातक के बाद के विभिन्न रोजगार के अवसरों के बारे में जिला रोजगार कार्यालय ऊना से कैरियर काउंसलर सुश्री कृति भारद्वाज द्वारा उनका मार्गदर्शन किया गया। टेक महिंद्रा फाउंडेशन के श्री नितिन शर्मा ने छात्रों को स्वास्थ्य देखभाल क्षेत्र में विशेष रूप से कोरोना महामारी की अवधि में नौकरी के विभिन्न अवसरों के बारे में मार्गदर्शन किया।

14. ग्रेजुएट एड ऑन कोर्स

अंतिम वर्ष के छात्रों के लिए, हमारे कॉलेज में हिमाचल प्रदेश कौशल विकास निगम द्वारा मचैहाइलर / सॉफ्ट स्किल नामक एक ग्रेजुएट एड ऑन कोर्स चलाया जा रहा है और इस कोर्स में 120 छात्र पंजीकृत हैं। प्रो. रेखा शर्मा इस कोर्स की समन्वयक हैं।

15. महिला शिकायत और निवारण प्रकोष्ठ

छात्राओं के सशक्तिकरण और उनकी शिकायतों को आवाज देने के लिए महाविद्यालय में महिला प्रकोष्ठ का गठन किया गया है। प्रकोष्ठ का उद्देश्य छात्राओं और महिला कर्मचारियों की समस्याओं का समाधान करना है। प्रकोष्ठ की संयोजक डॉ. सोफिया प्रभाकर हैं। यह प्रकोष्ठ स्वास्थ्य और स्वच्छता, पोषण और महिलाओं व छात्राओं से संबंधित अन्य मुद्दों पर व्याख्यान भी आयोजित करवाता है। उच्च शिक्षा निदेशालय को हर माह महिला प्रकोष्ठ द्वारा रिपोर्ट सौंपी जाती है।

16. प्राध्यापक एवं अभिभावक संघ

महाविद्यालय के प्राचार्य डॉ. रमन शर्मा की अध्यक्षता में 2021 में अभिभावक एवं प्राध्यापक संघ का गठन किया गया। शैक्षणिक सत्र 2021-2022 के लिए पीटीए के पदाधिकारी निम्नलिखित हैं।

S.No.	Name	Post
1	Sh. Ashok Choudhary	President
2	Prof. Darshan Dhillan	Sr.Vice President
3	Smt. Kanchan Raizada	Vice President
4	Prof.Amit Sharma	General Secretary
5	Sh. Parvinder Singh	Joint Secretary
6	Sh. Ravinder Verma	Treasurer

17. महाविद्यालय पत्रिका

विद्यार्थियों को सामाजिक, राजनैतिक और साहित्यिक मुद्दों पर अपने विचारों को व्यक्त करने के लिए हर साल आधिकारिक महाविद्यालय पत्रिका "अम्बिका" प्रकाशित कर एक मंच प्रदान किया जाता है। वर्तमान सत्र में, महाविद्यालय पत्रिका की मुख्य संपादक डॉ. सोफिया प्रभाकर हैं।

18. रेड रिबन क्लब (Red Ribbon club)

इस क्लब का उद्देश्य विद्यार्थियों और शिक्षकों में एचआईवी/एड्स के बारे में जागरूकता पैदा करना है। यह क्लब महाविद्यालय राष्ट्रीय सेवा योजना के अधीन कार्यरत है। 101 दिसंबर 2021 को विश्व एड्स दिवस मनाया गया, जिसमें छात्रों ने नुक्कड़ नाटक के माध्यम से सभी को जागरूक किया।

19. कानूनी सहायता प्रकोष्ठ (Legal Aid cell)

अनुमंडल विधिक सेवा प्राधिकरण अम्ब के सहयोग से महाविद्यालय में "Legal Aid cell" स्थापित किया गया है। इसका औपचारिक उद्घाटन कानूनी प्राधिकरण की अध्यक्षता श्रीमती सपना पांडे सिविल जज कम- एसीजेएम द्वारा किया गया था। समाज के कमजोर वर्गों को कानूनी सहायता प्रदान करने के उद्देश्य से इसकी स्थापना की गई है।

20. उच्च शिक्षा संस्थान सोसायटी (HEIS)

इस महाविद्यालय में HEIS का गठन 2013 में किया गया है इसके पदाधिकारी अधोलिखित हैं:

Ex-officio Members

21. पुस्तकालय

महाविद्यालय में 13742 किताबें, 05 दैनिक समाचार पत्र और 04 पत्रिकाओं के साथ एक अच्छी तरह से संग्रहित पुस्तकालय है। SOUL लाइब्रेरी सॉफ्टवेयर का उपयोग करके पुस्तकालय संसाधनों को स्वचालित किया जा रहा है।

शैक्षणिक सत्र 2017-2018 में कमजोर वर्ग के छात्रों की सहायता के लिए बुक बैंक की शुरुआत की गई है। बुक बैंक में 364 पुस्तकों का संग्रह है।

इसके अलावा, बीबीए और बीसीए छात्रों के लिए स्व-वित्त विभाग में एक अलग

पुस्तकालय है। इसके स्टॉक में 05 पत्रिकाओं, 03 दैनिक समाचार पत्रों और 1406 पुस्तकों का संग्रह है।

माननीय मुख्य अतिथि को इस अवसर की शोभा बढ़ाने के लिए धन्यवाद ज्ञापित करना मेरे लिए सौभाग्य और खुशी का क्षण है। महाविद्यालय अपनी शैक्षणिक और अकादमिक उपलब्धियों को सहेजे तथा विकास के नित नए अवसरों को तलाशते हुए सहज मार्ग पर अग्रसर है। सभी क्षेत्रों में उत्कृष्ट प्रदर्शन हमारा चरम लक्ष्य है। महाविद्यालय का स्वस्थ वातावरण, उत्साही कार्यप्रणाली, अनुशासित और संयमित व्यवस्था निश्चय ही इस संस्थान की दीवारों पर सफलता की इबारतें भविष्य में उकेरेगी। अभी अनेक महत्वकांक्षी योजनाओं और नीतियों को कार्यान्वित करना है। उनको मूर्त आकार देना है और इसके लिए सभी कर्मचारियों के सामूहिक प्रयास, समर्पण भाव, सहयोग, सौहार्द की महती आवश्यकता है, यह संतोष और राहत का विषय है कि सभी यथाशक्ति यथासंभव इस संस्थान की प्रगति के लिए प्रयासरत हैं। महोदय, आपने महाविद्यालय में पधार कर इस महाविद्यालय को अपनी उत्कृष्टता की खोज में आनन्दित होने और स्वयं को पुनः समर्पित करने का अवसर दिया है।

मैं स्थानीय प्रशासन के अधिकारियों, महाविद्यालय पीटीए के सदस्यों, प्रेस संवाददाताओं और सम्माननीय अतिथियों को भी धन्यवाद देता हूँ जो हमारे कॉलेज को लगातार समर्थन प्रदान कर रहे हैं।

मैं अपने समस्त स्टाफ के सदस्यों, एनएसएस स्वयंसेवियों, एनसीसी कैडेट्स और इस महाविद्यालय के सभी छात्र व छात्राओं के सहयोग से महाविद्यालय को सफलतापूर्वक चलाने में अपना सहयोग और समर्थन देने के लिए अपना हार्दिक आभार व्यक्त करता हूँ।

धन्यवाद।
