Self-Assessment Report

SAR 2024-25

Criterion 1: Teaching Learning

Sub Criterion 1.1 Mode of Teaching

1.1.1 Lecture Method Only

1.1.1 Lecture method only

Certificate

It is hereby certified that, in addition to the conventional lecture method, the faculty of the institution employs a diverse range of innovative teaching–learning methodologies to enhance student engagement and learning outcomes. These include technology-based teaching, flipped classroom approaches, hands-on practical training, experiential learning, and structured self-learning modules. Such methodologies encourage active participation, critical thinking, and independent learning among students.

For the effective execution of these pedagogical practices, the institution has developed robust academic infrastructure. The college is equipped with 11 interactive panel–based smart classrooms that facilitate digital content delivery and interactive teaching, one virtual conference hall for online lectures, webinars, and expert interactions, one projector-based classroom, and one projector-based multipurpose hall for academic and co-curricular activities. All these facilities are fully functional and are regularly utilized to support innovative and technology-enabled teaching–learning processes across various programmes.
